Preparing and Using Individualized Learning Packages for Ungraded, Continuous Progress Education Philip G. Kapfer, Glen F. Ovard, 1971 Abstract The main goal of an Individual Learning Package (ILP) is to assist teachers in creating learning environments that are more humanized. ILPs should permit students to learn at their own unique rates, to have alternative ways to meet stated goals, to plan their own learning sequences, and to be successful with varying levels of self-initiative and self-direction. Presenting the ILP approach to instructional management through curriculum design, the curriculum components are what will be learned, concept, skill, and value statements, what changes will occur, learning objectives, what will facilitate those changes, IL materials and activities, how evaluation can help pre-self and post-evaluation, and finally future goals. Organizing the ILP components and evaluating for ILP improvement are discussed. **Strategic Learning Package** Pearson Education Canada, 1999-08-29 *LEARNING TO LEARN* Dr. Bijalben Rajeshbhai Mistry, 2022-09-20 Language is one of the wonderful gifts given by God to humanity with the help of language that human being is able to communicate and solve a number of problems and has been able to make a lot of achievements in life. Language plays an important role for the transaction of these elements between the teacher and the taught. According to Ravel, 2006, in school curriculum, language plays a vital role. Language as a vehicle of communication is very crucial in the whole process of education. It is through language that everything is taught and learnt in a majority of teaching-learning including the classroom. If there has been no language, it would have been difficult to communicate the views to follow human beings. Any branch of knowledge cannot be pursued without properly using and understanding language.
