G R Fardon Book:

San Francisco Album G. R. Fardon, 1999-08 In the early 1850s a British photographer arrived in San Francisco and became fascinated with the changing face of the city which he captured in some of the earliest photographs on paper ever made in the United States George Robinson Fardon's San Francisco Album documents a time of rapid growth and burgeoning prosperity in the wake of the California Gold Rush As the earliest published photographic record of an American city it is a work of both historic significance and pioneering artistry

Pioneer Photographers of the Far West Peter E. Palmquist, Thomas R. Kailbourn, 2000 This extraordinarily comprehensive well documented biographical dictionary of some 1 500 photographers and workers engaged in photographically related pursuits active in western North America before 1865 is enriched by some 250 illustrations Far from being simply a reference tool the book provides a rich trove of fascinating narratives that cover both the professional and personal lives of a colorful cast of characters

Urban Formalism David Faflik, 2020-04-07 Urban Formalism radically reimagines what it meant to read a brave new urban world during the transformative middle decades of the nineteenth century At a time when contemporaries in the twin capitals of modernity in the West New York and Paris were learning to make sense of unfamiliar surroundings city peoples increasingly looked to the experiential patterns or forms from their everyday lives in an attempt to translate urban experience into something they could more easily comprehend Urban Formalism interrogates both the risks and rewards of an interpretive practice that depended on the mutual relation between urbanism and formalism at a moment when the subjective experience of the city had reached unprecedented levels of complexity This book not only provides an original cultural history of forms It posits a new form of urban history comprising the representative rituals of interpretation that have helped give meaningful shape to metropolitan life

Postcard America Jeffrey L. Meikle, 2016-01-20 This illustrated history of the colorized linen postcards of the 1930s and 40s is an incredible tour A veritable treasure trove of American culture Crave Online From the Great Depression through the early postwar years any postcard sent in America was more than likely a linen card Colorized in vivid often exaggerated hues and printed on card stock embossed with a linen like texture linen postcards celebrated the American scene with views of majestic landscapes modern cityscapes roadside attractions and other notable features These colorful images portrayed the United States as shimmering with promise quite unlike the black and white worlds of documentary photography or Life magazine Linen postcards were enormously popular with close to a billion printed and sold Postcard America offers the first comprehensive study of these cards and their cultural significance Drawing on the production files of Curt Teich Co of Chicago the originator of linen postcards Jeffrey L Meikle reveals how photographic views were transformed into colorized postcard images often by

means of manipulation adding and deleting details or collaging bits and pieces from several photos He presents two extensive portfolios of postcards landscapes and cityscapes that comprise a representative iconography of linen postcard views For each image Meikle explains the postcard s subject describes aspects of its production and places it in social and cultural contexts In the concluding chapter he shifts from historical interpretation to a contemporary viewpoint considering nostalgia as a motive for collectors and others who are fascinated today by these striking images Brand book Westerners. Los Angeles Corral,1999 *Bracing for Disaster* Stephen Tobriner,2015-05-01 The first history of seismic engineering in San Francisco spiced with survivor and eyewitness accounts Midwest Book Review For the past one hundred and fifty years architects and engineers have quietly been learning from each quake and designing newer earthquake resistant building techniques and applying them in an ongoing effort to save San Francisco Bracing for Disaster is a fresh appraisal of a city responding to repeated devastation In the language of a skilled teacher Tobriner examines what really happened during the city s earthquakes which buildings were damaged which survived and who were the unsung heroes Filled with more than two hundred photographs diagrams and illustrations this is a revealing look at the history of buildings by a true expert and it offers lessons not just for San Francisco but for any city beset by natural disasters The real saga is how a fast growing city grapples with the reality that it has more to worry about than fires and fog The core of the story is fairly technical rooted in the crude intuitive ways in which builders reacted to a seismic threat they could neither measure nor define But Tobriner crafts the story well SFGate **Frederick Billings** Robin W. Winks,1998-01-01 00 Frederick Billings was the first lawyer to hang his shingle in San Francisco the man who named the city of Berkeley and an instrumental figure in founding the University of California An early conservationist and advocate of national parks Billings was also president of the Northern Pacific railroad This riveting biography captures not only Billings s dynamic life but also the spirit and excitement of California during the gold rush era Frederick Billings was the first lawyer to hang his shingle in San Francisco the man who named the city of Berkeley and an instrumental figure in founding the University of California An early conservationist and advocate of national parks Billings was also president of the Northern Pacific railroad This riveting biography captures not only Billings s dynamic life but also the spirit and excitement of California during the gold rush era **Subject Guide to Books in Print** ,1997 Robert Brown and the Vancouver Island Exploring Expedition John Hayman,1989 Robert Brown a twenty one year old Scotsman arrived on Vancouver Island in 1863 for the purpose of collecting seeds roots and plants for the Botanical Association of Edinburgh Relations with his employer quickly deteriorated however and when the opportunity arose in 1864 to head the Vancouver Island Exploring Expedition Brown eagerly accepted the position as its commander During the four and a half months of the expedition Brown kept a journal which is published here for the first time It is remarkable for its record of life on Vancouver Island over a century ago and its description of the island s pristine wilderness as well as for its proposals for future economic development The accounts of agricultural settlements at Cowichan
