Bottleneckers William Mellor, Dick M. Carpenter II, 2016-12-13 Bottleneckers a person who advocates for the creation or perpetuation of government regulation particularly an occupational license to restrict entry into his or her occupation thereby accruing an economic advantage without providing a benefit to consumers The Left Right and Center all hate them powerful special interests that use government power for their own private benefit In an era when the Left hates fat cats and the Right despises crony capitalists now there is an artful and memorable one word pejorative they can both get behind bottleneckers A bottleneckers is anyone who uses government power to limit competition and thereby reap monopoly profits and other benefits Bottleneckers work with politicians to constrict competition entrepreneurial innovation and opportunity They thereby limit consumer choice drive up consumer prices and they support politicians who willingly overstep the constitutional limits of their powers to create maintain and expand these anticompetitive bottlenecks The Institute for Justice's new book Bottleneckers coins a new word in the American lexicon and provides a rich history and well researched examples of bottleneckers in one occupation after another from alcohol distributors to taxicab cartels pointing the way to positive reforms

Bordering Nira Yuval-Davis, Georgie Wemyss, Kathryn Cassidy, 2019-06-10 Controlling national borders has once again become a key concern of contemporary states and a highly contentious issue in social and political life But

controlling borders is about much more than patrolling territorial boundaries at the edges of states it now comprises a multitude of practices that take place at different levels some at the edges of states and some in the local contexts of everyday life in workplaces in hospitals in schools which taken together construct reproduce and contest borders and the rights and obligations associated with belonging to a nation state This book is a systematic exploration of the practices and processes that now define state bordering and the role it plays in national and global governance Based on original research it goes well beyond traditional approaches to the study of migration and racism showing how these processes affect all members of society not just the marginalized others The uncertainties arising from these processes mean that more and more people find themselves living in grey zones excluded from any form of protection and often denied basic human rights

Unfinished Business Tamim Bayoumi, 2017-09-19 A penetrating critique tracing how under regulated trading between European and U S banks led to the 2008 financial crisis with a prescription for preventing another meltdown There have been numerous books examining the 2008 financial crisis from either a U S or European perspective Tamim Bayoumi is the first to explain how the Euro crisis and U S housing crash were in fact parasitically intertwined Starting in the 1980s Bayoumi outlines the cumulative policy errors that undermined the stability of both the European and U S financial sectors highlighting the catalytic role played by European mega banks that exploited lax regulation to expand into the U S market and financed unsustainable bubbles on both continents U S banks increasingly sold sub par loans to under regulated European and U S shadow banks and when the bubbles burst the losses whipsawed back to the core of the European banking system A much needed fresh look at the origins of the crisis Bayoumi s analysis concludes that policy makers are ignorant of what still needs to be done both to complete the cleanup and to prevent future crises *Urban Platforms and the Future City* Mike Hodson, Julia Kasmire, Andrew McMeekin, John G. Stehlin, Kevin Ward, 2020-11-30 This title takes the broadest possible scope to interrogate the emergence of platform urbanism examining how it transforms urban infrastructure governance knowledge production and everyday life and brings together leading scholars and early career researchers from across five continents and multiple disciplines The volume advances theoretical debates at the leading edge of the intersection between urbanism governance and the digital economy by drawing on a range of empirically detailed cases from which to theorize the multiplicity of forms that platform urbanism takes It draws international comparisons between urban platforms across sites with attention to the leading edges of theory and practice and explores the potential for a renewal of civic life engagement and participatory governance through platform cooperativism and related movements A breadth of tangible and diverse examples of platform urbanism provides critical insights to scholars examining the interface of digital technologies and urban infrastructure urban governance urban knowledge production and everyday urban life The book will be invaluable on a range of undergraduate and postgraduate courses as well as for academics and researchers in these fields including anthropology geography innovation studies politics public policy science and technology studies sociology

Small Area Estimation and Microsimulation Modeling Azizur Rahman, Ann Harding, 2016-11-30

Small Area Estimation and Microsimulation Modeling is the first practical handbook that comprehensively presents modern statistical SAE methods in the framework of ultramodern spatial microsimulation modeling while providing the novel approach of creating synthetic spatial microdata. Along with describing the necessary theories and their advantages and limitations, the authors illustrate the practical application of the techniques to a large number of substantive problems, including how to build up models, organize and link data, create synthetic microdata, conduct analyses, yield informative tables and graphs, and evaluate how the findings effectively support the decision-making processes in government and non-government organizations.

Features: Covers both theoretical and applied aspects for real-world comparative research and regional statistics production. Thoroughly explains how microsimulation modeling technology can be constructed using available datasets for reliable small area statistics. Provides SAS codes that allow readers to utilize these latest technologies in their own work.

This book is designed for advanced graduate students, academics, professionals, and applied practitioners who are generally interested in small area estimation and/or microsimulation modeling and dealing with vital issues in social and behavioural sciences, applied economics, and policy analysis, government and/or social statistics, health sciences, business psychology, environmental and agriculture modeling, computational statistics, and data simulation, spatial statistics, transport and urban planning, and geospatial modeling.
