global citizenship and discuss the intersections between the framework of GCE and multiculturalism. They address the three main topics which affect education in multicultural societies and in a globalized world and which represent unsolved dilemmas: the issue of diversity in relation to creating citizens, the issue of equality and social justice in democratic societies, and the tension between the global and the local in a globalized world. Through a comparative study of the two prevailing approaches, intercultural education within the European Union and multicultural education in the United States, the authors seek what can be learned from each model. *Global Citizenship Education and the Crises of Multiculturalism* offers not only a unifying theoretical framework but also a set of policy recommendations aiming to link the two approaches.
