Motor Company of Cleveland Ohio served as the US Cavalry s primary scouting and reconnaissance vehicle during the early  
days of the US entry into WWII A powerful Hercules engine four wheel drive and relatively light weight gave the vehicle both  
impressive on road speed and reasonable off road maneuverability Typically armed with a trio of heavy and light machine  
guns the vehicle was not intended to slug it out with the enemy but rather to locate the enemy and through its impressive  
array of radio equipment report the positions to more heavily armed forces Through dozens of archival photos including  
previously unpublished images as well as details of some of the finest existing examples this iconic vehicle is explored and its  
history is explained Part of the Legends of Warfare series **Technical Manual** ,1990 **Ordnance Maintenance** United
