Making Sense of Messages Mark Stoner, 2019-11-13. *Making Sense of Messages* now in its second edition retains the apprenticeship approach which facilitates effectively learning the complex content and skills of rhetorical theory and criticism. A new chapter on The Rhetoric of Ignorance provides needed theory and examples that help students deal with the new rhetorical landscape marked by such discursive complexities as fake news, whataboutism, and denial of science that creates rather than reduces uncertainty in public argument. A new chapter, Curating and Analyzing Multimodal Mediated Rhetoric, deals with problems of media criticism in the digital age. It provides theory, models of application, and commentary that help novice critics understand and mindfully practice criticism that leads to insight, not mere opinion. Throughout the book, extended and updated examples and commentaries are designed to promote novice to expert agency in students. This textbook is ideal for introductory courses in contemporary rhetoric, rhetorical criticism, and critical analysis of mass media.

The Analytical Writer Adrienne Robins, 1995-09. In *The Analytical Writing*, Adrienne Robins explains college writing as a process of discovery as a series of strategies that any college student can learn to apply. All strategies explained in this text are based on sound theories of teaching writing and on the patterns of successful writers. Writing and thinking should not be separated and presenting only the steps without the accompanying explanation of how they influence thinking would be of little more help than having no method at all. By using this text, the students will see as they plan, draft, and revise how their writing helps clarify their thoughts. This clearly written and engaging textbook is illustrated by real examples of student writing and appropriate cartoons. The second edition was revised and updated based on the large-scale evaluation of the first edition completed by professors and students. The new edition reflects four essential values: recognizing the diversity of writing processes, the necessity of peer and teacher interaction with the writer on drafts, the integration of writing and reading, and the appropriate uses of technology. Specific features of this second edition include new writing samples, electronic citation formats, updated library use chapter with technological guidance, concise paragraph chapter, revised introduction and conclusion chapter, rhetorical as well as grammatical explanations for punctuation usage, new cartoons, exercises drawn from students' papers, a condensed chapter on research papers, and an expanded and clearer chapter on special assignments and other writing tasks. A Collegiate Press book.
