*Clients are tricky, and as such the best way to go about an email in this category is to be concise and straight to the point, stating the purpose of the meeting and how it can benefit the client, also adding contact information in closing the email. It is important not to force a client to wade through unnecessary information that they may not even be patient enough to read through.

(Take note that meetings with clients should not be requested on first contact).

Helping managers globally, this book offers new real-world case studies and a chance for readers to participate in thought experiments to help with personal performance, group synergy, and by extension, relationship dynamics of all kinds. Demonstrates with statistically significant trend analyses that Virtual Distance is growing at exponential rates in every corner of communities worldwide. Accountability for Human Rights Violations against Batwa in Kahuzi-Biega National Park Colin Luoma,2022-05-05 The Kahuzi Biega National Park PNKB in the Democratic Republic of the Congo presents an existential threat to the indigenous Batwa people For millennia Batwa occupied the forests surrounding Mount Kahuzi and Mount Biega utilizing traditional ecological knowledge and sustainable practices to foster one of the most biodiverse places on the planet The creation of the PNKB in the 1970s forced Batwa from their ancestral lands rendering them deeply impoverished landless dependent and culturally disconnected When they seek to return home and access their lands and resources they are subjected to extreme violence by park authorities who treat them as trespassers poachers and enemies of conservation This report situates the serious human rights violations suffered by Batwa in the PNKB within the broader global phenomenon of fortress conservation and analyses the respective roles and accountability of the park s core international partners Ongoing violence against Batwa in the PNKB is a stark reminder of the immense human and environmental costs associated with pursuing conservation policies that prevent indigenous peoples from owning governing accessing and benefiting from their territories and resources These policies are bolstered by donors global NGOs and international organizations which enable and tacitly uphold a violent and

anti indigenous status quo in the PNKB and other protected areas Donors conservation organizations and other international partners of the PNKB have failed to adequately ensure that their support did not contribute to human rights violations committed against Batwa These international partners had explicit knowledge of unresolved human rights abuses committed by ecoguards as well as threats of imminent violence against Batwa communities living inside the park Yet they continued to equip fund and train ecoguards and actively promoted the increasing militarization of the PNKB This militarization has resulted in overly aggressive policing and military style actions by ecoguards often jointly with the Congolese Army who explicitly target criminalize and brutalize Batwa At the same time the park consistently fails to meet environmental expectations and objectives Thus the PNKB represents a clear case of how fortress conservation fails both people and the environment Regrettably it is not an isolated example of flawed conservation policy Instead it is indicative of the institutional shortcomings and systemic failures inherent in the dominant ways in which conservation is pursued by states and promoted by international conservation actors in the Congo Basin and in other parts of the world Bank of America and Merrill Lynch United States.
