 from the Fr. of l'abbé ***.** Jean Hippolyte Michon, 1864 **New Essays on Frege** Gisela Bengtsson, Simo Säätelä, Alois
 Pichler, 2018-01-12 This volume collects nine essays that investigate the work of Gottlob Frege The contributors address
 Frege s work in relation to literature and fiction Dichtung the humanities Geisteswissenschaften and science Wissenschaft
 Overall the essays consider internal connections between different aspects of Frege s work while acknowledging the
 importance of its philosophical context There are also further common strands between the papers such as the relation
 between Frege s and Wittgenstein s approaches to philosophical investigations the relation between Frege and Kant and the
 place of Frege s work in the philosophical landscape more generally The volume is therefore of direct relevance to several
 current debates in philosophy in general in addition to Frege and Wittgenstein research in particular Even though Frege s
 great significance for contemporary philosophy is not disputed the question of how we are to understand the character and
 aims of his project is debated The debate has a starting point in Frege s specific conception of logic The volume elucidates
 this conception as well as the relation between natural language and the Begriffsschrift It will help philosophers researchers
 and students better understand the nuances of this great thinker By extension it will also help readers seeking to understand
 Wittgenstein s approach to philosophical difficulties and his struggle to find an apt form of presentation for his philosophical
 investigations [The Ladies Killing Circle Anthology 4-Book Bundle](#) Joan Boswell, Barbara Fradkin, 2013-10-07 This ebook

On Stoicism and Artistic Creativity* Piotr Stankiewicz, 2019-07-18 Stoicism is coming back in a big way Seen as a remedy for the craziness of the times we live in it is experiencing a great surge in academic and cultural interest Yet can one live stoically and be a creative artist at the same time Delving into its underlying tenets obscure restrictions and limits of applicability Stankiewicz critically explores Stoicism and its complex association with artistic creativity Stoicism and artistic creativity are two great displays of the human spirit Yet there are multiple reasons to suspect that they are at odds with each other Popular culture encapsulates this problem in the figure of the rational yet emotionally remote Stoic who achieves serenity through withdrawal and the contrasting figure of the cursed poet tormented artist or simply a rock star who lives in a whirl of creative energy yet falls short of quietude Is this contrast valid Other disciplines including psychology have explored this problem But it has never been done philosophically Pioneering in its philosophical approach this book discusses how artistic creativity and its problems of identity expression and self creation serve as a great testing ground for Stoicism as well as its theoretical challenges and practical limits Stankiewicz presents a detailed investigation into the stereotypes of Stoic life that seeks to explain the cause of Stoicism s modern revival This book is an essential read for anyone captivated by Stoicism s complex allure *Georg Trakl*. - New York: Twayne (1971). 166 S. 8° Herbert Lindenberger, 1971
