Life explores the patterns that unfold over the course of our lives as we set out to find our place in the world in our efforts to  
live authentically and in our search for home that place within ourselves that can so easily be neglected or disregarded in this  
fast paced modern world In the first half of life the task of the young traveler is to depart from home to adventure out into  
the world to find his or her own individual path However in the second half we find ourselves on what often amounts to a  
very long journey in search of home In many a tale the hero for instance Gilgamesh sets off on his road to find life's elixir

while other stories such as the Odyssey revolve around the hero's long and arduous journey home. Many are also familiar with the journey of Dante who at the very beginning of his Divine Comedy finds himself Midway along the journey of our life. The archetypal journey of life is constantly reenacted in the never-ending process of individuation. We find ourselves returning to this venture repeatedly every night as we set out on our voyage into the landscape of our unconscious. Many dreams begin by being on the way for instance I am on my way to I am driving on a road that leads into the desert I am walking through one room after the other in a long corridor like building I am walking towards my office but it looks different than in reality I walk on the pavement and on the opposite side of the street someone seems to be following me I go down into an underground parking I am in my car but someone I don't know is driving I have to go to the place from where I came
