National School Counselor Worker Day 2015:

Equity-Based Career Development and Postsecondary Transitions Erik M. Hines, Laura Owen, 2022-03-01 Former First Lady Michelle Obama believes that every individual should have some type of postsecondary education or training beyond high school to achieve economic and personal success Reach Higher Initiative Better Make Room 2019 Educational attainment e g a high school diploma college degree or postsecondary training provides career opportunities for advancement into leadership positions and benefits such as health insurance and retirement Heckman 2000 Additionally an individual with a college degree can make over one million dollars more over a lifetime in salary than someone with a high school diploma Carnevale Cheah Hanson 2015 Acquiring a college degree can lead to employment opportunities and is considered an asset in the U S economy Washington 2010 However certain populations encounter barriers to attaining an education particularly a postsecondary education leading to a disparity in receiving the aforementioned benefits Some of these populations include African American students LGBTQ students and students with disabilities There is a dearth of information and research on providing guidance on implementation research and best practices in equity based career development college readiness and successful postsecondary transitions for minoritized at risk or vulnerable populations The editors of this volume invited authors with research and practice expertise around various student populations in preparing them for college and career readiness as well as postsecondary transitions This book is the first of its kind to discuss career development and postsecondary transitions from an access and equity perspective Further this text serves as a call to action to ensure the United States most vulnerable populations has an opportunity to successfully transition into multiple postsecondary options after high school The Routledge Handbook on Financial Social Work Christine Callahan, Jodi Jacobson Frey, Rachel Imboden, 2019-11-21 The Routledge Handbook on Financial Social Work explicates the financial needs issues and interventions within populations and theoretical approaches and it assists clinician practitioners in intervening expertly and comprehensively This book covers a range of issues in populations seeking services around complex financial needs and struggles including those in the child welfare system those with housing issues or facing homelessness those coping with chronic and acute medical and psychiatric illnesses those recovering from interpersonal violence those facing recovery from incarceration children and families involved in the child welfare system and much more In addition policies will be woven in to inform the work This book thoroughly explores research and evidence based interventions around each population and teaches clinicians to understand and treat financial distress holistically and empathically This handbook will explain why understanding financial capability in these populations is so critical and how clinicians can step up their practices to meet those needs Professionals from multiple disciplines ranging from financial therapists to social workers to financial coaches to financial planners will find this handbook eminently useful **Rebound, Grades K-12** Douglas Fisher, Nancy Frey, Dominique Smith, John Hattie, 2021-03-30 For more than a year now we educators have been tested and

tested again We've been stretched we've been pulled we've been put through the wringer But now it's time to rebound It's time to bounce back come back better and benefit from the many lessons learned to reignite engagement accelerate learning and move forward with fresh optimism and better systems for schooling Enter Doug Fisher Nancy Frey Dominique Smith and John Hattie whose Distance Learning Playbooks have supported more than a half million educators across pandemic teaching and who are here now to advise you on this next absolutely critical leg of our ongoing journey Complete with tools and strategies prompts and exercises Rebound A Playbook for Rebuilding Agency Accelerating Learning Recovery and Rethinking Schools will help you Address the collective traumas we have experienced during the pandemic and rebuild our sense of agency and self so that we can attribute student success to both teachers and students efforts Evaluate what we have learned about remote teaching and learning to determine what to carry forward and what to leave behind Shift the narrative from learning loss to learning leaps and implement instructional and assessment practices that ensure our students reclaim lost knowledge build skills develop agency and accelerate gains Redefine classrooms learning experiences the ways schools operate and the very idea of schooling itself The greatest travesty that can arise for schools after 2020-21 Doug Nancy Dominique and John write is to rush back to the old normal and learn nothing or little about what worked well That's why this book has focused on rebounding and taking the opportunity to create an even better schooling system one that serves even more students and focuses more on what matters most Let's agree not to reduce the impact that our expectations have on students learning What if we talk about learning leaps instead of learning loss What if we identify where students are in their learning and identify critical content that they must learn now to accelerate their performance in the future And what if we raise our expectations for students rather than lower them Douglas Fisher Nancy Frey Dominique Smith and John Hattie

Reimagining School Discipline for the 21st Century Student John A. Williams III, Chance W. Lewis, 2022-01-01 Regularly schools and their personnel enact school disciplinary practices without considering how to harness the engagement of students practitioners and communities to enact transformative changes that reduce if not eliminate punitive school discipline approaches Reimagining School Discipline for the 21st Century centralizes the assets and strengths of historically marginalized students and the professional knowledge of school personnel as possible avenues to implement solutions to eliminate school discipline disproportionality Rather than redressing the issues of school discipline

disproportionality overall this book examines the existence of school on student groups who according to research and national and state reports are afflicted the most African American Latinx Native American and LGBTQ population A confluence of these identities can exacerbate such disproportionality which based on the literature decreases the academic growth of students However situated within these disparities are opportunities to better and critically engage students based on their cultural racial ethnic and social emotional learning assets The significant feature of this book lies in its purpose and audience reach Each chapter was written based on the scholar s affinity to that student group or practitioner s affiliation to that specific profession This provides a genuine perspective and knowledge based on first hand experiences concerning school discipline and applicable approaches to remedy such issues Additionally all the chapters articulate the pressing issue of school discipline according to their group and explicates best practices to best serve the assets of students in K 12 school settings As this book is situated the intended audience is for the following stakeholders policy makers social workers school counselors school administrators teachers and community organizers who want to make impactful and socially just changes in their school s immediately
