

GRADE 9 NATURAL SCIENCES TERM 4

THE EARTH AS A SYSTEM

Week 1

What is a "system"?

It can be described as a group of things/different parts that work together to make something work.

Different parts of the Earth:

Air

Land / country

Water

Life

These are called "spheres". there is no beginning and end in a sphere, therefore, it can also be called a "cycle".

Let's analyze each sphere:

Atmosphere - it is a layer of gases around the Earth.

Hydrosphere – this refers to water in various forms; liquid, solid and gas.

Lithosphere – this is solid rock and soil that makes up the Earth's surface.

Biosphere – all living things that live together.

Chao Zhang

Natural Sciences For Grade 9 Term 4 Exam:

Complexity and Simplicity in Science Education David Geelan, Kim Nichols, Christine V. McDonald, 2022-01-25 This edited volume brings together a broad range of international science education studies focusing on the interplay of teaching and learning science. It recognizes the complexity present in today's education associated with major science-related issues faced by society such as climate change, diseases, and pandemics, global conflicts over energy, food, and water. The studies discussed in this volume are focused on presenting different opportunities to teach these convoluted matters in order to find simplicity within the complexity and make it accessible to learners. They bring together the challenges of preparing the students of today to become scientifically informed citizens of tomorrow. **SEBI Officer Grade A- Information Technology Exam**
