Mandating Physical Education

Instilling the importance of a healthy lifestyle in children at a young age will help save American society. Ease and convenience is the cornerstone of an average American's lifestyle. With this ease and convenience comes food at the touch of a button and videos on demand. Many modern inventions help make life easy, but at what cost? Americans are often lazy and as a result the obesity rate in this country is out of control. One way to combat this problem is by teaching young children to be physically active and promoting good health at a young age in their physical education classes at school. Physical education classes must be mandated in schools to help children maintain a healthy lifestyle and convince society to adopt a healthier lifestyle from a young age.
