

Remind yourself of the extract from *Danger of a Single Story*:

4 In what ways does the writer use language and structure to interest and engage the reader?

You should support your answer with close reference to the extract, including brief quotations.

12

At the **beginning** of the extract, the writer explores the limitations of representation in literature and how it shaped her early understanding of identity. She states, "All my characters were white and blue-eyed, they played in the snow (...) despite the fact that I lived in Nigeria", highlighting the disconnect between the books she read and her own lived reality. The phrase "white and blue-eyed" establishes a clear contrast with her identity, reinforcing how dominant narratives excluded people like her. The imagery of "played in the snow" is particularly significant, as it symbolises a foreign and unattainable world that did not reflect her own experiences. This exclusion meant that she was unable to see herself represented in literature, leading to a restricted sense of what was possible. Structurally, the use of a personal anecdote at the start immediately engages the reader and makes her argument relatable. The contrast between "despite the fact that I lived in Nigeria" and the previous description of a snowy landscape emphasises the extent to which these stories shaped her perception of what literature could be, setting up the essay's central argument about the power and danger of dominant narratives.

In the **middle** of the extract, the writer continues the dangers of a single perspective, showing how stereotypes influence the way people view others. She recalls, "Her default was (...) patronising, well-meaning pity (...) a single story of catastrophe", highlighting how limited narratives can lead to a narrow, damaging understanding of different cultures. The adjective "default" suggests an automatic, unconscious bias, reinforcing the idea that stereotypes are ingrained in society. The phrase "patronising, well-meaning pity" is particularly striking as it suggests that even seemingly
