Liberating Logos Pope Benedict XVI S September Speeches:

Liberating Logos Catholic Church. Pope (2005-2013 : Benedict XVI), Marc D. Guerra, 2014 Six public lectures of Benedict XVI given in Paris Regensburg London Prague Beirut and Berlin Themes include denaturing effects of dehellénization grounds of religious dialogue and the transpolitical and timeless nature of Christianity's message *Leo Strauss and His Catholic Readers* Geoffrey M. Vaughan, 2018-05-11 This book looks at the work and influence of Leo Strauss in a variety of ways that will be of interest to readers of political philosophy It will be of particular interest to Catholics and scholars of other religious traditions Strauss had a great deal of interaction with his contemporary Catholic scholars and many of his students or their students teach or have taught at Catholic colleges and universities in America Leo Strauss and His Catholic Readers brings together work by scholars from two continents some of whom knew Strauss one of whom was his student at the University of Chicago The first section of essays considers Catholic responses to Strauss's project of recovering Classical natural right as against modern individual rights Some of the authors suggest that his approach can be a fruitful corrective to an uncritical reception of modern ideas Nevertheless most point out that the Catholic cannot accept all of Strauss's project The second section deals with areas of overlap between Strauss and Catholics Some of the chapters explore encounters with his contemporary scholars while others turn to more current concerns The final section approaches the theological political question itself a question central to both Strauss's work and that of the Catholic intellectual tradition This section of the book considers the relationship of Strauss's work to Christianity and Christian commitments at a broader level Because Christianity does not have an explicit political doctrine Christians have found themselves as rulers subjects and citizens in a variety of political regimes Leo Strauss's return to Platonic political philosophy can provide a useful lens through which his Catholic readers can assess what it means for there to be a best regime **Catholic Social Teaching** Gerard V. Bradley, E. Christian Brugger, 2019-08 Few treatments of Catholic Social Teaching are as comprehensive as this and none is nearly so devoted to a critical scholarly presentation and analysis of the whole corpus **The Wiley Blackwell Companion to Catholicism** Frederick C. Iradi, 2024-09-13 The relationship between nature and grace is a key debate in Fundamental theology The understanding of how nature and grace relate to each other is also a critically important part in comprehending the underpinnings of Western secular culture and therefore how best to evangelise it This book compares John Milbank and Joseph Ratzinger two relatively recent theologians who have both drawn from the insights of Henri de Lubac and have attempted to address the challenge that secular culture presents to the mission of the church In demonstrating and comparing how each author s approach to the nature grace couplet consequently determines their respective approach to secular culture it is hoped that responses to the challenge of secular culture might be more comprehensively considered
