National Geographic Magazine 1978 May:

New York Magazine ,1984-09-24 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea The Incredible Scream Machine Robert Cartmell,1987 In 1984 America celebrated the one hundredth anniversary of the first successful roller coaster device La Marcus A Thompson s switchback railway erected at Coney Island Robert Cartmell examines every phase of roller coaster history from the use of the roller coaster by Albert Einstein to demonstrate his theory of physics to John Allen s use of psychology in designing one *Making Moderate Islam* Rosemary R. Corbett,2016-11-23 Drawing on a decade of research into the community that proposed the so called Ground Zero Mosque this book refutes the idea that current demands for Muslim moderation have primarily arisen in response to the events of 9 11 or to the violence often depicted in the media as unique to Muslims Instead it looks at a century of pressures on religious minorities to conform to dominant American frameworks for race gender and political economy These include the encouraging of community groups to provide social services to the dispossessed in compensation for the government s lack of welfare provisions in an aggressively capitalist environment Calls for Muslim moderation in particular are also colored by racist and orientalist stereotypes about the inherent pacifism of Sufis with respect to other groups The first investigation of the assumptions behind moderate Islam in our country Making Moderate Islam is also the first to look closely at the history lives and ambitions of the those involved in Manhattan s contested project for an Islamic community center HBJ Social Studies : States and Regions : Grade 4 Harcourt Brace Staff,Phillip Bacon,1991 First in the Homes of His Countrymen Lydia Mattice Brandt,2016-12-14 Over the past two hundred years Americans have reproduced George Washington s Mount Vernon plantation house more often and in a greater variety of media than any of their country s other historic buildings In this highly original new book Lydia Mattice Brandt chronicles America s obsession with the first president s iconic home through advertising prints paintings popular literature and the full scale replication of its architecture Even before Washington s death in 1799 his house was an important symbol for the new nation His countrymen used it to idealize the past as well as to evoke contemporary and even divisive political and social ideals In the wake of the mid nineteenth century s revival craze Mount Vernon became an obvious choice for architects and patrons looking to reference the past through buildings in residential neighborhoods at world s fairs and along the commercial strip The singularity of the building s trademark piazza and its connection to Washington made it immediately recognizable and easy to replicate As a myriad of Americans imitated the building s architecture the Mount Vernon Ladies Association carefully interpreted and preserved its fabric Purchasing the house in 1859 amid intense scrutiny the organization safeguarded Washington s home and ensured its

accessibility as the nation's leading historic house museum Tension between popular images of Mount Vernon and the organization's official narrative for the house over the past 150 years demonstrates the close and ever shifting relationship between historic preservation and popular architecture In existence for roughly as long as the United States itself Mount Vernon's image has remained strikingly relevant to many competing conceptions of our country's historical and architectural identity

The Complete Book of Seminole Patchwork Beverly Rush, Lassie Wittman, 1993-01-01 Fascinating introduction to a unique form of needlecraft distinguished by bright horizontal patterns and created by sewing cutting and rearranging strips of multicolored bands Simply written profusely illustrated volume includes a glossary of important terms and displays varied patchwork patterns along with instructions for reading assembly diagrams Studies in the History of Art, 2009

Imaging and Mapping Eastern Europe Katarzyna Murawska-Muthesius, 2021-05-10 Imaging and Mapping Eastern Europe puts images centre stage and argues for the agency of the visual in the construction of Europe's east as a socio-political and cultural entity This book probes into the discontinuous processes of mapping the eastern European space and imaging the eastern European body Beginning from the Renaissance maps of Sarmatia Europea it moves onto the images of women in ethnic dress on the pages of travellers reports from the Balkans to cartoons of children bullied by dictators in the satirical press to Cold War cartography and it ends with photos of protesting crowds on contemporary dust jackets Studying the eastern European iconosphere leads to the engagement with issues central for image studies and visual culture word and image relationship overlaps between the codes of othering and self-fashioning as well as interaction between the diverse modes of production specific to cartography travel illustrations caricature and book cover design This book will be of interest to scholars in art history visual culture and central Asian Russian and Eastern European studies
