economists policymakers and the population at large are consistently exposed to the same opinions on the preferred way of organizing an economy This book explores the economic impacts of these shared cultural values focusing on the economies of the United States of America Germany and France These three countries broadly represent three different types of economic organization and their corresponding economic ideologies a free market economy a coordinated market economy and a hierarchical market economy The contributors to this edited volume have examined the extent to which the shared worldviews between academic economists policymakers and the wider population impact these economies In particular the chapters investigate the consequences for the design of the labor market the financial system competition policy and monetary policy The work also explores the extent to which the shared views on national culture and economic systems and policies in these countries contribute to the population s well being overall This book makes an invaluable contribution to the literature on comparative economics economic policy well being and cultural economics

The Political Economy of International Commodity Cartels Elina Kuorelahti, 2020-12-29 The Political Economy of International Commodity Cartels examines how international commodity cartels in the 1930s were impacted not only by commercial rivalry but also by international trade political and diplomatic concerns This work presents the rise and decline of the European Timber Exporters Convention ETEC and analyses how firms navigated through the cartel game under increasing international competition pressures from the national governments and the interventionist endeavours of the League of Nations Cartels are often associated with in the standard economic interpretation business collusion However in using vast archive sources and historical methodology the chapters in this book shed light onto how international relations shaped cartels The rise of British protectionism the emergence of the Soviet Union as an industrial power and the economic rapprochement of the League of Nations in the early 1930s created a wave of political and diplomatic challenges in the timber trading countries and affected cartelisation Timber firms in the biggest producer countries Finland and Sweden were uninterested in international cartel collaboration but under pressure joined the ETEC nevertheless This book makes a strong contribution to the fields of business history and cartel studies It is an essential read for economic historians interested in how political pressure shaped international cartels and how cartels became avenues of diplomacy

The Russian State and Russian Energy Companies, 1992-2018 Ingerid M. Opdahl, 2020-06-09 The Russian State and Russian Energy Companies analyses the development of relations between the state and five major energy companies and how this shaped Russia s foreign policy in the post Soviet region The book argues that the development of Russia s political economy mattered for foreign policy over the quarter of a century from 1992 to 2018 Energy companies roles in institutional development enabled them to influence foreign policy formation and they became available as tools to implement foreign policy The extent to which it happened for each company varied with their accessibility to the Russian state Institutional development increased state capacity in a way that strengthened Russia s political regime The book shows how the combined power of several companies in the gas oil

electricity and nuclear energy industry was a key feature of Russian foreign policy both in bilateral relationships and in support of Russia's regional position. In this way Russia's energy resources were converted to regional influence. The book contributes to our understanding of Russia's political economy and its influence on foreign policy and of the formation of policy towards post-Soviet states.

Employers' Associations in Asia John Beson, Ying Zhu, Howard Gospel, 2017-06-26 Economic growth in Asia over the past half century has led to significant changes in societies, business organization, and the nature of work. This has been accompanied by the rise in some countries of trade unions and also of employers associations. This book explores the nature of employers associations in the major countries of Asia. It considers how employers associations have developed in recent decades, how changes in market structures and the profile of economies have affected employers associations, how employers associations deal with issues to do with pay and employment conditions, and how they interact with regulation and

the state The book shows how the differing political and institutional contexts of different countries and different economic conditions greatly affect the nature of employers associations and also the wider context of labour markets and trade unions

A Research Agenda for Political Demography Sciubba, Jennifer D.,2021-08-27 Exploring how demographic dynamism continues to shape the character of societies this forward looking Research Agenda offers insights into how the human population has undergone fundamental demographic shifts and the impact these have had on how we organize ourselves politically the design of our economic systems and even our societal relationships

Extending the Idea of Environment: New Perspectives and Tools for a new Knowledge Fabio D'Andrea,2025-03-18 Most scholars and actors in civil society no longer deny the existence of a climate crisis Very little is being done about it however which appears logically and rationally incomprehensible To try and find a reason for this peculiar behavior since it could be vital to the survival of our species the hypothesis might be advanced that it is a symptom of a much greater misunderstanding of the world which has biased and distorted our ways of creating knowledge This book is mainly about putting forward new ideas and strategies to cope with climate change in the shared conviction that a new understanding is crucial to stand a chance against its consequences and to be up to mending what has so far been broken The authors focus on various facets of the complexity of the environmental issue and their arguments enter a powerful resonance that shows their inner interconnectedness and how letting it flow achieves interesting and useful results The book is composed of three parts the first Perspectives contains chapters proposing alternative ways of understanding the environment and its dominant narrative The authors are mostly committed to changing the reference frame through which the whole question is being addressed The second part Propositions is focused on highlighting significant aspects of the environmental crisis that still need to be properly taken into account and on suggesting new policies and tools to cope with it It has an ethical and strategic flavor The third part Cases deals with the real world making use of field research and accurate analysis that illustrate the close link between what we are used to calling theory and practice You will find it easy to establish parallels and connections between the chapters I hope you will enjoy it

The Other World Craig Arceneaux,Anika Leithner,Sara Lopus,Benjamin F. Timms,Shanruo Zhang,2024-11-29 Now in its eleventh edition The Other World combines thematic and area studies approaches to explore contemporary global issues Accessible and interdisciplinary this textbook offers political economic social and historical analyses of Latin America Sub Saharan Africa North Africa and the Middle East and Asia The Other World highlights similarities and differences as it recognizes the challenges and opportunities offered by globalization New to the eleventh edition A new co author Sara Lopus whose academic training at the intersection of social agricultural and environmental problems enhances the interdisciplinary appeal of the book A new concluding chapter on Other World features in Western countries and postcolonialism Revamped sections on Perspectives on Globalization with cases on creative responses to sustainability sovereignty and cultural change issues Discussion of new topics including cybersecurity and cyberwarfare the impact of supply chain bottlenecks food politics

and issues of global obesity the rise of zoonotic diseases and pandemics such as Covid 19 new regional diplomacy in Middle East protest and political change in Latin America refugee flows the emergence of ageing populations and many more The Other World is the perfect introductory text to the world's developing regions and their political challenges a must buy for courses in comparative politics politics of the developing world and introduction to international studies *Central and Eastern European Economies* Marcus Goncalves,Erika Cornelius Smith,2016-07-25 Nearly seven decades ago six countries in Western Europe Belgium France West Germany Italy Luxembourg and the Netherlands decided to take economic cooperation to the next level The vision of the EU founding states epitomized by the Schuman Declaration in 1950 was to tie their economies so closely together that war would become impossible Robert Schuman author of the plan believed Europe could not be made all at once or according to a single plan It would have to be built through concrete achievements which first create a de facto solidarity The countries within the European Community benefited enormously from free trade and common economic policies in particular structural funds designed to foster convergence by funding infrastructure and investments in poorer regions This book examines how similar transitions and integration into the European Union are experienced in individual central and eastern European states through the use of country scans in the regional blocks of CEE SEE and CIS **Development and Distribution** Andy Sumner,2018-07-03 Since the Second World War surprisingly few developing countries have experienced a truly sustained episode of economic and social convergence towards the structural characteristics of the advanced nations East Asia has exceeded most regions in its achievement of convergence and much has been written on comparative industrialization and development in North East Asia Less discussed is South East Asia and the surprising and inclusive transformation several of its countries has undergone Development and Distribution focuses on South East Asia and more specifically on Malaysia Indonesia and Thailand These three nations have all undergone a major transformation in a way never anticipated from being poor agrarian countries to middle income countries with developed industrial and manufacturing bases How did Malaysia Indonesia and Thailand achieve such a transformation and how did they achieve the transformation with a form of economic growth that was driven by structural transformation but that was inclusive Given that historically it has been thought that structural transformation tends to push up inequality whilst inclusive growth necessitates static or even falling inequality this last point is particularly salient to developing countries Understanding how the transformation was possible in a relatively small space of time the extent to which it was inclusive and the caveats and prospects for South East Asia is thus an area of enquiry significant to all developing countries as they seek economic and social transformation *Why Does Development Fail in Resource Rich Economies* Elissaios Papyrakis,2019-05-17 There has been a lot of interest within the scientific and policy communities in the resource curse that is the tendency of mineral rich economies to turn into development failures Yet after more than 20 years of intensive research and action the curse still lingers as a very real global problem because of volatile mineral prices bad governance

and conflict This book incorporates current original research on the resource curse from some of the most prominent contributors to this literature combined with a critical reflection on the current stock of knowledge It is a unique attempt to provide a more holistic and interdisciplinary picture of the resource curse and its multi scale effects This edited volume reflects the current academic diversity that characterises the resource curse literature with a mix of different methodological approaches both quantitative and qualitative analyses and a diverse geographical focus Latin America Sub Saharan Africa global Taken together the studies emphasize the complexities and conditionalities of the curse its presence intensity being largely context specific depending on the type of resources socio political institutions and linkages with the rest of the economy and society This book was originally published as a special issue of the Journal of Development Studies
