1. Suppose you were trapped on a desert island with no sources of fresh water. Should you drink water from the ocean? Explain why or why not.

2. What do you think would happen if you watered your houseplants with salt water?

They would all slowly die.

1. Which particles can pass through the cell membrane?

the green particles (the solvent)

2. Which particles cannot pass through the cell membrane?

the blue particles (the solute)

3. Click **Reset** (), and then click **Play** again. What do you notice about the size of the cell?
