Newspaper Assignment

Maple Valley – The local English class has been given the exciting task of creating the front page of their very own newspaper.

Students will be the editors of their own newspapers and will be responsible for developing a theme for their newspaper. For example, the students could choose to do a newspaper on snowboarding, music, travel, an animal, or another topic of interest.

Each student will be creating just the front page of their

paper. They must include a picture to go with their main story. Their image may be hand-drawn, from the internet, or a magazine. They must not forget to include a caption.

Besides a main story, (with a picture and headline) students must also include some other features in their newspapers. For example, ads, sports, weather, movie review, or an idea of their choice.

Students will also ensure that their article covers the 5W's

and tells the full story.

They will be also be sure to spell-check and edit their work so that there are no errors.

Glenn Porter won a Gold Medal in the 2019 World Ski Championships held in Switzerland over the weekend. Read more on page 102.

Creativity Counts!!

Students must keep in mind that a newspaper should be interesting to read. Nobody wants to read a boring article. Try to think of a catchy headline!

Stories can be funny, silly, true, or entirely made-up. However, they must answer the five W's – Who, What, Where, When, Why?

English Journal, 1919 **Telling True Stories** Matthew Ricketson, 2014-03-26 In this excellent and provocative book Matthew Ricketson lays bare the challenges of modern storytelling I have found myself thinking about it every day long after I put it down William Powers author of *Hamlet's BlackBerry* An essential guide for the true storyteller Chloe Hooper award winning author of fiction and non fiction It's etched into our neurological pathways we can't live without it Telling true stories is one of the things that makes us human and a strong narrative has the power to profoundly change the way we think Truman Capote's groundbreaking *In Cold Blood* set the tone Narrative non fiction now appears in print and online journalism as well as in books Capote's work is also a classic case study of the thorny issues arising in telling true stories how to maintain editorial independence while becoming close to your subject how far to take the narrative when reporting on real events whether an omniscient narrative voice is appropriate for non fiction and what kind of relationship to create with the reader The stakes are high true stories deal with real people often at turning points in their lives Matthew Ricketson uncovers the techniques of some of the best international practitioners from America Australia and Britain and shows how to produce authentic vibrant and memorable writing **News, Ads, and Sales** John Baker Opdycke, 1914 *Chicago Schools Journal*, 1919 **The Complete Newspaper Resource Book** Jane Lamb, 1985 A tool and sourcebook with reproducible pages aids teachers using the newspaper in the classroom *Contrastive Rhetoric* Ulla Connor, 1996-01-26 Shows how a person's first language and culture influence writing in a second language **Journalistic Translation** Sabir Hasan Rasul, 2019-05-08 This volume painstakingly formulates a composite model of translation procedures that covers both linguistic and cultural aspects inherent in translation The model is based on an integration of three classic taxonomies of translation procedures proposed by influential translation scholars namely Vinay and Darbelnet 1995 Newmark 1988 and Dickins Hervey and Higgins 2002 2016 The book combines these three taxonomies into an integrated model and extends it effectively to identify patterns of translation procedures and overall strategies in English Kurdish translation of journalistic texts The book is a breakthrough in the field of journalistic translation between the two languages With a clear definition and exemplification of each translation procedure the importance of the model is that it is replicable for future descriptive translation studies and can be carried out in other language pairs and on other genres Moreover the model is comprehensive in nature and covers almost all translational changes and shifts that may occur in the translation process Thus this model of translation procedures transcends previous frameworks in such a way that prospective translation researchers will not need to go back to these older models of translation procedures **Proceedings** Ohio State Educational Conference, 1928

It also places the techniques in the context of the study of text manual indexing and abstracting and the use of the indexing descriptions and abstracts in systems that select documents or information from large collections. Important sections of the book consider the development of new techniques for indexing and abstracting. The techniques involve the following: using text grammars; learning of the themes of the texts including the identification of representative sentences or paragraphs by means of adequate cluster algorithms; and learning of classification patterns of texts. In addition, the book is an attempt to illuminate new avenues for future research. *Automatic Indexing and Abstracting of Document Texts* is an excellent reference for researchers and professionals working in the field of content management and information retrieval. *The Chicago Schools Journal*, 1929

Corpora in the Foreign Language Classroom, 2015-07-14
The papers published in this volume were originally presented at the Sixth International Conference on Teaching and Language Corpora 4-7 July 2004, Granada, Spain, and reflect the latest developments that have taken place in the field of the teaching applications of text corpora with a special emphasis on their use in the foreign language classroom. The book is divided into three main sections. The first section sets the scene for what this collection of essays aims to be. It deals with the issue of what corpus linguistics can do not only for the understanding of the nature of language itself but also for so fundamental and miraculous a matter such as language learning and language acquisition. The second section tackles the issues of corpus design and corpus exploitation and provides the reader with a great variety of evidence in favour of corpora exploitation for the building of a successful teaching environment. The final section deals with practical applications of corpora in the foreign language classroom. Although each of the papers here reports particular experiences in very different teaching and learning contexts, as a whole they show that corpora can be used on the spot in a language teaching context by teachers and learners without extensive training in computational tools and studies of linguistics features can be tailored to specific pedagogic context and learning requirements. The book represents a solid contribution to linguistic studies and language teaching and it is a good example of the diversity of the scientific lines in which corpus linguistics is involved at the present moment. *Effects of Writing Newspaper Articles on Third Grade Students Expository Writing Ability* Lindsay Ehlers, 2001
