

(Responding to question #7 on ReadyWorks)

What can be concluded about the relationship between animals and human beings from these two texts? Support your answer with evidence from both texts.

## Extended Constructed Response Example

Human beings and animals have interacted for years. Sometimes, these relationships between humans and animals can actually benefit us humans. In both texts, it can be concluded that the relationship between animals and humans is a positive one. This is because both Kara from *Say Hello to the Giant Gorilla* and the people of Cambodia mentioned in *Oxen and Transportation in Cambodia* are better off after their interactions with animals.

Kara from *Say Hello to the Giant Gorilla* benefits from meeting the gorilla because she was having a bad time at the zoo until meeting Christopher, the gorilla. I know this because the text says, "it's the only thing at this stupid zoo that will be any fun." This means that Kara thought that meeting the gorilla would be fun, when everything else she had done was not. I can also tell that she is better off after meeting the gorilla because after she shook his hand the text says, "she laughed." This is very different from her actions in the beginning that show that she is bored.

The people of Cambodia mentioned in *Oxen and Transportation in Cambodia* benefit from their relationships with oxen because the oxen make farming easier for the people. In the text it says, "Can you see how valuable an ox is to a Cambodian farmer? With oxen, farmers can plow more land, carry heavier things, and sell their crops in markets far from home." This shows that farmers can do more with oxen than they could without, which is a beneficial relationship.

To close, it can be concluded that in both texts there is a beneficial relationship between humans and animals. This is because Kara was able to have a better zoo experience after seeing the gorilla, and the people of Cambodia are able to have more success in farming with the help of oxen. These texts show just two examples of humans and animals interacting in a positive way.
