Sample Book Insights

1 I am not a scientist but I do regularly appear on television to expose the unscientific claims about catastrophic man made climate change I have spent the last twenty five years in a variety of disciplines including as a working journalist documentary maker radio talk show host and author

2 I am a climate skeptic a doubter and a dissenter I have been smeared as a denier But I am not alone in my skepticism I work regularly with a large network of internationally renowned scientists many of them formerly of the United Nations Intergovernmental Panel on Climate Change

3 I started out my political life as an eleven year old volunteer for Ronald Reagan s 1980 presidential campaign I was not a fan of James Watt Reagan s Interior secretary as I was upset by his land use policies and by what I perceived to be his anti environmental stances

4 My documentary refuted the myth that environmentalists and celebrities are the friends of indigenous people I spoke with the tribal leaders who have contempt for environmental activists and celebrities because they feel exploited by them
