Picart, Michael Hviid Jacobsen, Cecil Greek, 2016-04-01 This cutting edge edited

collection brings together 17 scholarly essays on two of cinema and television's most enduring and powerful themes: law and crime. With contributions by many of the most prominent scholars in law, sociology, criminology, and film, *Framing Law and Crime* offers a critical survey of a variety of genres and media, integrating descriptions of technique with critical analysis and incorporating historical and socio-political critique. The first set of essays brings together accounts of the history of the Law and Cinema Movement, the groundbreaking genre of post-apocalyptic fiction, and the policy-setting genesis of a Canadian documentary. The second section of the book turns to the examination of a range of international or global films with an eye to assessing the strengths, frailties, and possible functions of law as depicted in fictional cinema. After an international focus in the second section, the third section focuses on law and crime in American film and television, inclusive of both fictional and documentary modes of narration. This section's expansion beyond film narratives to include television series attempts to broaden the scope of the edited collection in terms of media discussed; it is also a nod to how the big screen, although still a dominant force in American popular culture, now has to compete to some extent with the small screen for influence over the collective American popular cultural imaginary. The fourth section, titled *Bringing Law and Crime to the Screen*, brings together various chapters that attempt to instantiate how a Gothic Criminology could be useful as an interpretative framework in analyzing depictions of law and crime in film and television. The fifth and final section covers issues of pedagogy, epistemology, and ethics in relation to moving images of law and crime. Merging wide-ranging analyses with nuanced scholarly interpretations, *Framing Law and Crime* examines key concepts and showcases original research reflecting the latest interdisciplinary trends in the scholarship of the moving image. It addresses not only scholars but also fans and will heighten the appreciation of connoisseurs and newcomers to these topics alike.
