Lagopoulos, Karin Boklund-Lagopoulou, 2020-11-23 The book is an in depth presentation of the European branch of semiotic theory originating in the work of Ferdinand de Saussure It has four parts a historical introduction the analysis of language narrative theory and communication theory Part I briefly presents all the semiotic schools and their main points of reference Although this material is accessible in many other Anglophone publications the presentation is marked by specific choices aiming to display similarities and differences The analysis of language in Part II is also available in Anglophone bibliography but the book presents Saussurean theory according to a new theoretical rationale and enriched with later developments In addition it is orientated so as to offer the foundation for the part that follows Part III is a presentation of Greimasian narrative theory well documented in Francophone bibliography but poorly represented in Anglophone publications The presentation extends the theory in both a qualitative and a new quantitative direction and includes a great

American Poetry after Modernism Albert Gelpi, 2015-03-09 Albert Gelpi's *American Poetry after Modernism* is a study of sixteen major American poets of the postwar period from Robert Lowell to Adrienne Rich Gelpi argues that a distinctly American poetic tradition was solidified in the later half of the twentieth century thus severing it from British conventions In Gelpi's view what distinguishes the American poetic tradition from the British is that at the heart of the American endeavor is a primary questioning of function and medium The chief paradox in American poetry is the lack of a tradition that requires answering and redefining redefining what it means to be a poet and likewise how the words of a poem create meaning offer insight into reality and answer the ultimate questions of living Through chapters devoted to specific poets Gelpi explores this paradox by providing an original and insightful reading of late twentieth century American poetry

Selected Poems of Vladimir Nabokov Vladimir Nabokov, 2012-05-29 Though we know Vladimir Nabokov as a brilliant novelist his first love was poetry This landmark collection brings together the best of his verse including many pieces that have never before appeared in English These poems span the whole of Nabokov's career from the newly discovered *Music* written in 1914 to the short playful *To V ra* composed in 1974 Many are newly translated by Dmitri Nabokov including *The University Poem* a sparkling novel in verse modeled on Pushkin's *Eugene Onegin* that constitutes a significant new addition to Nabokov's oeuvre Included too are such poems as *Lilith* an early work which broaches the taboo theme revisited nearly forty years later in *Lolita* and *An Evening of Russian Poetry* a masterpiece in which Nabokov movingly mourns his lost language in the guise of a versified lecture on Russian delivered to college girls The subjects range from the Russian Revolution to the American refrigerator taking in on the way motel rooms butterflies ice skating love desire exile loneliness language and poetry itself and the poet whirls swiftly between the brilliantly painted facets of his genius wearing masks that are by turns tender demonic sincere self parodizing shamanic visionary and ingeniously domestic

Heart in Conflict Michael Grimwood, 2009-01-01 *Heart in Conflict* is a study of two periods of intense vocational crisis in William Faulkner's career as a writer his time of apprenticeship before the composition of *The Sound and the Fury* and the beginnings in the late 1930s and early 1940s of the long season of decline that followed the completion of *Absalom Absalom* These periods of crisis Michael Grimwood argues grew out of an ongoing tension between the divided components of Faulkner's personality between two versions of himself the illiterate bumpkin and the sophisticated aesthete It was a collaboration between these two postures that formed Faulkner's vocation that created the impulse to translate the rural

unlettered world of Oxford Mississippi into a literature of the highest ambitions But Faulkner was neither bumpkin nor aesthete His awareness of the fraudulence of both his self images and ultimately his art caused him to create beginning with *The Wild Palms* in 1939 novels divided against themselves both structurally and thematically novels whose complexities emanate from their author's own complex personality Grimwood traces the formation of Faulkner's divided personality in his childhood and youth in the conflicting influences of literature and landscape in the conflicting urges wrought by a mother who called him to the rigors of the schoolhouse and a father whose interests led to the diffuse pleasure of the world outside The conflict gained dimension when Faulkner's earliest poems written in the style of the European pastoral were mocked by students in the pages of the University of Mississippi literary magazine Faulkner internalized this mockery and it would emerge in the late 1930s and early 1940s as a destructively self critical compulsion to write novels *The Wild Palms* *The Hamlet* *Knight's Gambit* and *Go Down Moses* that were simultaneously pastoral and mock pastoral that reflected both an impulse to bequeath his own substance through words and a virtual surrender to illiteracy In many ways the tensions that divided Faulkner tensions between pastoral ideal and rural reality between flights of language and attachment to the wordless soil also divided the whole of southern literature and society from the time of its origins Such conflicts can be found in the writings of Thomas Jefferson philosopher of democracy and slaveowner in the southwestern humor and plantation fiction that dominated southern letters in the 1830s and in the works of the agrarian writers of the 1930s whose European poesy belies their dirt road political beliefs Showing how the tensions in the narratives mirrored tensions in the author and in his society *Heart in Conflict* reveals William Faulkner as he struggled with his inheritance both as a southerner and as a southern writer

Biblical Sound and Sense Thomas p. McCreesh, 1991-12-01 The first chapter of this unusual and instructive work shows how the study of sound patterns in Old Testament Hebrew poetry is integral to the investigation of biblical poetry. Then several chapters describe and systematize the sound patterns beginning with simpler examples of assonance and alliteration. The analysis gradually moves on to more complex configurations which link words and phrases emphasize key words mark off syntactical and semantic units and highlight word repetition and word play. A relationship between sound pattern and meaning in each proverb is shown throughout.

Quantitative Intertextuality Christopher W. Forstall, Walter J. Scheirer, 2019-07-10 This book introduces quantitative intertextuality a new approach to the algorithmic study of information reuse in text sound and images. Employing a variety of tools from machine learning natural language processing and computer vision readers will learn to trace patterns of reuse across diverse sources for scholarly work and practical applications. The respective chapters share highly novel methodological insights in order to guide the reader through the basics of intertextuality. In Part 1 Theory the theoretical aspects of intertextuality are introduced leading to a discussion of how they can be embodied by quantitative methods. In Part 2 Practice specific quantitative methods are described to establish a set of automated procedures for the practice of quantitative intertextuality. Each chapter in Part 2 begins with a general introduction to a major concept e.g. lexical matching sound matching semantic matching followed by a case study e.g. detecting allusions to a popular television show in tweets quantifying sound reuse in Romantic poetry identifying influences in fan fiction by thematic matching and finally the development of an algorithm that can be used to reveal parallels in the relevant contexts. Because this book is intended as a gentle introduction the emphasis is often on simple yet effective algorithms for a given matching task. A set of exercises is included at the end of each chapter giving readers the chance to explore more cutting edge solutions and novel aspects to the material at hand. Additionally the book's companion website includes software R and C library code and all of the source data for the examples in the book as well as supplemental content slides high resolution images additional results that may prove helpful for exploring the different facets of quantitative intertextuality that are presented in each chapter. Given its interdisciplinary nature the book will appeal to a broad audience. From practitioners specializing in forensics to students of cultural studies readers with diverse backgrounds e.g. in the social sciences natural language processing or computer vision will find valuable insights.
