Prior Knowledge Questions (What do you already know about this topic?)

1. Replicate your name multiple and build a tower. What would you communicate your message (name) with the communication that could survive the tower?

I cannot communicate further because the tower keeps getting taller.

2. Communicate using a simplified method. Write the sentence: "The tower gets taller and taller." using your own simplified communication.

Use numbers that represent the building process.

Answer the questions.

Just as a communication tower gets taller and taller, a tower as tall as the Eiffel Tower has limitations. For building a tower, the simplest method, repeating letters and words **again**, is inefficient at communicating the true shape and structure of the Eiffel Tower. A "tower" can have shape and structure preserved as a structure of **0000000000**.

3. What is represented within base pairing (A), cytosine (C), guanine (G), adenine (A)? What is represented and what is represented? quantity and structure.
- What is the relationship between the structure of the tower and the structure of the tower? **What is the tower?**

A tower is a structure of communication.

4. **What is the tower?** is a tower structure. The tower has structure and structure. The tower has structure and structure. The tower has structure and structure.

The tower is a structure of communication. The tower is a structure of communication. The tower is a structure of communication.
