Development of Human Memory Peter Graf (PhD.), Nobuo Ohta, 2002 An original approach to memory development that views memory as a continuous process of growth and loss over the human lifespan rather than as a series of separate periods Until recently the vast majority of memory research used only university students and other young adults as subjects Although such research successfully introduced new methodologies and theoretical concepts it created a bias in our understanding of the lifespan development of memory This book signals a departure from young adult centered research It views the lifespan development of memory as a continuous process of growth and loss where each phase of development raises unique questions favoring distinct research methods and theoretical approaches Drawing on a broad range of investigative strategies the book lays the foundation for a comprehensive understanding of the lifespan development of human memory Topics include the childhood and adulthood development of working memory episodic and autobiographical memory and prospective memory as well as the breakdown of memory functions in Alzheimer s disease Of particular interest is the rich diversity of approaches methods and theories The book takes an interdisciplinary perspective drawing on work from psychology psychiatry gerontology and biochemistry *An Ecological Bi-focal Model for Elder Physical Abuse by Adult Child* Levente von Heydrich, 2009 **Zelfreflectie in het hoger onderwijs** Frans Meijers, Kariene Mittendorff, 2017-07-28

In de 21ste eeuw moeten beroepsbeoefenaars in staat zijn om hun hele leven lang na te denken over zichzelf en kritisch en zelfsturend te zijn in hun eigen leerproces Door te reflecteren op het eigen leren tijdens de opleiding zouden studenten tevens meer gemotiveerd worden voor hun eigen leerproces en persoonlijke ontwikkeling En door te reflecteren op de eigen persoonlijkheid en kwaliteiten zouden studenten hun eigen motieven en ambities beter begrijpen en daardoor betere studiekeuzes maken met minder studie uitval als gevolg In de praktijk worden deze doelen echter nog niet behaald Uit verschillende onderzoeken blijkt dat studenten een hekel hebben aan reflecteren Onderwijsactiviteiten die geassocieerd worden met reflecteren worden door de meeste studenten en docenten niet serieus genomen maar ervaren als een verplicht nummer Er lijkt sprake van reflectiemoeheid en van tegenvallende opbrengsten Veel docenten worstelen met de vraag wanneer er sprake is van kwalitatief goede reflectie en wat de kwaliteit van reflectie bepaalt Wanneer kan men zeggen dat een student beter heeft gereflecteerd dan een ander Studenten op hun beurt weten niet goed wat reflecteren precies inhoudt terwijl hun docenten er als vanzelfsprekend vanuit gaan dat ze al kunnen reflecteren of het wel zullen leren door het gewoon zelfstandig te doen In dit boek behandelen de auteurs allen docenten en of onderzoekers de weerbarstige problematiek van

zelf reflectie in het onderwijs Er zijn theoretische hoofdstukken rond de vraag Wat is reflectie hoofdstukken waarin verslag wordt gedaan van onderzoek naar reflectie en hoofdstukken waarin creatieve alternatieven worden aangedragen voor de gangbare reflectiepraktijken Ten slotte zijn er hoofdstukken waarin wordt gereflecteerd over reflectie Kunnen docenten het Is reflectie gevaarlijk En zijn de nog onvolgroeide hersenen van studenten in staat tot reflectie *Sport in Korea* Dae Hee Kwak,Yong Jae Ko,Inkyu Kang,Mark Rosentraub,2017-07-28 Korea has become a powerful force in global sport with South Korea finishing fifth in the medals table at London 2012 and hosting the Winter Olympics in 2018 This book brings together scholars from disciplines including sport history sociology journalism economics sport development and sport management to explore the significance of sport in contemporary Korea Presenting a variety of international perspectives it plots the dynamic evolution of sport in Korea and envisions the possibilities for its future Each chapter focuses on a key topic of current relevance such as sport in the context of shifting relations between North and South Korea or the role of sport in the expression of Korean nationalism Arguing that individuals institutions businesses and governments have actively leveraged or exploited sport to influence developments in various social economic cultural and political arenas this book sheds new light on the importance of sport as a catalyst for change in Korea This is indispensable reading for any student or scholar with an interest in sport history and culture in Korea **Pedagogies for Later-Life Music Learning and Participation** Andrea Creech,Colin Enright,2025-07-01 This open access book presents evidence based participant and facilitator perspectives on later life music learning and participation The chapters explore the principles and practices that can facilitate and support meaningful music making in a range of non formal later life contexts highlighting consistent as well as context specific pedagogical issues Case study examples are used to examine issues relating to pedagogy as improvisation the use of technology to support creativity and meaningful music experience facilitation of the use of music for creativity sense of belonging musical identities and musical development in later life and more The book concludes with an innovative and creative pedagogical model to support critical reflection on values frameworks and practices in later life music learning and participation The book will be accessible and relevant for music researchers and educators music education students and community music leaders alike Lifespan Development Tara L.
