Exposures Further Beyond The Camera Saga Book English Edition:

British Journal of Photography William Crookes, T.A. Malone, George Shadbolt, J. Traill Taylor, William Blanchard Bolton, Thomas Bedding, 1905 **Scholarly Book Translation Series**, 1962 **Observing the Moon** Peter Wlasuk, 2000

Observing the Moon is a definitive work written as a reference book for anyone seriously interested in the Moon and its geology. It is of course a perfect companion for practical observers. Detailed and extensively illustrated chapters catalog all the interesting lunar features visible in modest telescopes. They are preceded by a crash course in modern lunar geology based on the vast amount we have learned during and since the Apollo missions and are followed by chapters on photographic and CCD imaging drawing and lunar topography. A CD ROM accompanies this book and contains an atlas of lunar images and much more. The CD ROM requires a PC running Windows 3.1 or higher, a minimum of 16MB Windows 3.1 64MB Windows 95 up of memory and a 2x or faster CD ROM player.

The Weaponized Camera in the Middle East Liat Berdugo, 2021-01-14

Drawing on unprecedented access to the video archives of B'Tselem, an Israeli NGO that distributes cameras to Palestinians living in the West Bank, East Jerusalem and the Gaza Strip, Liat Berdugo lays out an argument for a visual studies approach to videographic evidence in Israel/Palestine. Using video stills as core material, it discusses the politics of videographic evidence in Israel/Palestine by demonstrating that the conflict is one that has produced an inequality of visual rights. The book highlights visual surveillance and counter surveillance at the citizen level: how Palestinians originally filmed to shoot back at Israelis who were armed with shooting power via weapons as the occupying force. It also traces how Israeli private citizens began filming back at Palestinians with their own cameras, including personal cell phone cameras, thus creating a simultaneous, echoing counter surveillance. Complicating the notion that visual evidence alone can secure justice, *The Weaponized Camera in the Middle East* asks how what is seen but also who is seeing affects how conflicts are visually recorded. Drawing on over 5,000 hours of footage, only a fraction of which is easily accessible to the public domain, this book offers a unique perspective on the strategies and battlegrounds of the Israel/Palestine conflict.

The Amateur Photographer, 1911

The popular illustrated journal for all photographers devoted to the interests of photography and kindred arts and sciences.

Minox D. Scott Young, 2000-06-14

On Sunday September 11, 2001, tens of thousands of people, including the daughter of the CIA Director and her children, are shopping when The Mall of America, the largest shopping mall in the country, is torn apart by massive explosions. The CIA Director's daughter is gravely injured and later dies in the hospital. In New York, at a small regional airport, six missiles destroy the control tower, the passenger terminal, a plane and fuel truck, and a corporate hangar, and several private jets. Among the victims are the parents of the head of the FBI counterterrorism department. The country comes to a standstill. A shocked president addresses the nation and promises action. But a recalcitrant Congress refuses to recognize that its inability to deal with illegal immigrants has enabled these new attacks to take place. The president authorizes the CIA and FBI to work together to find who is behind the attacks and
