The High Stakes of Testing Amy L. Kelly,2019-05-07 Standardized assessments have long been part of the educative experience for students around the world The high stakes nature of these tests can have damaging and enduring effects for public school systems particularly the youth With the adoption of Common Core State Standards and mandated state wide accountability measures high stakes tests like the PARCC gained quick and controversial notoriety The high stakes discourse has been dominated by politicians educators and parents Notably absent from this dialogue are the voices of those whom are impacted the most students Largely influenced by Critical Pedagogy this research sheds light on the negative punitive and often arbitrary nature of testing in schools The paramount intention of this publication is to raise awareness of student experiences and perspectives of standardized testing The High Stakes of Testing analyzes the experiences relationships thoughts ideas and opinions students have with standardized assessment measures Interviews with seven students in Grades 3 5 and 8 are examined through a governmentality lens to reveal the ways in which the youth are manipulated regulated and disciplined to view standardized testing as a natural part of what it means to be a public school student It is only when we can begin to see and appreciate how our youth interact with the omnipresent testing in our public schools can we begin to envision changing these accountability practices Student Work and Teacher Practices in Science Christine Y.

O'Sullivan,Andrew R. Weiss,1999 In 1996 the National Assessment of Educational Progress NAEP assessed the knowledge and skills of students in the areas of earth science life science and physical science It also collected information related to the background of students grades 4 8 and 12 their teachers grades 4 and 8 and the schools they attended grades 4 8 and 12 This report is intended primarily for science teachers hence the results presented relate directly to student performance classroom practices and school climate This report also discusses students attitudes and beliefs about science The report is divided into four parts In the first part chapter 1 an overview of the assessment is provided This includes information about the framework used in the development of the assessment a description of how the assessment was administered to students and an explanation of how to interpret NAEP results In the second part chapters 2 3 and 4 examples of questions and student responses are presented These chapters are divided by grade The third part chapters 5 and 6 contains information collected from students teachers and school administrators about classroom practices student motivation and parental involvement in learning Finally the fourth part contains appendices offering a fuller description of the procedures used for the NAEP 1996
