

**DIRECTIONS**

Make sure you

- show all your work in solving the problem,
- clearly label your answer,
- tell in words how you solved the problem,
- tell in words why you took the steps you did to solve the problem, and
- write as clearly as you can.

To solve this problem first I, made 19 wheels because I could make the problem easier by putting an arrow and a B or T for bike 2 wheels or trike 3 wheels. Next I, made bikes but when I only had 3 wheels left I stopped because if I made another bike I'd only have 1 wheel left and there's nothing with 1 wheel. Then I, made the last 3 wheels a trike because 3 wheels would make a trike and if I made another bike I'd only have 1 wheel but we don't have any unicycles finally I wrote      Bikes and      Trike and put in my answer of 8 bikes and 1 trike
