

# APA STYLE CHEAT SHEET

How to cite a journal article using APA style

To cite a journal article using APA style, you need to cover the following details of the source in the following sequence:

## SOME POINTS TO REMEMBER!

- Invert the authors' names, i.e., an author's last name should appear first followed by his/her initials, each of which must be followed by a period (.)
- If the source has only 2 authors, separate them using an ampersand (&) instead of "and"
- The **title of the article** must be followed by a period
- The **title of the journal or periodical** must be italicized and followed by a comma (,)
- The **issue number** must be followed by a comma and there should be no space between it and the **volume number**
- **Page numbers** must be followed by a period

# How To Cite A Journal Article

**Scott R. Harris**

## How To Cite A Journal Article:

How to Critique Journal Articles in the Social Sciences Scott R. Harris, 2022-01-03 Journal articles form the bedrock of social science but they can be unfamiliar and intimidating to students This brief introductory guide helps readers appreciate the rigor and pitfalls of research by comparing it to more ordinary ways of knowing Each chapter focuses on a key aspect of articles demystifying step by step the complexities of social research Harris encourages readers to avoid naivete accepting research findings as simple Truth and cynicism dismissing research as hopelessly flawed and instead adopt a critical perspective that appreciates the strengths and weaknesses of any piece of scholarship A new chapter on research design explores how scientists choose a broad approach to study a topic which impacts subsequent research decisions Exercises throughout allow readers to practice the highlighted techniques in class discussion short assignments or a major writing project Comprehensive yet succinct and accessible the second edition of How to Critique Journal Articles in the Social Sciences equips students with the confidence to read and understand social research for use in their education careers and personal lives

Publishing Journal Articles Zheng Yan, 2020-11-05 Journal publication and grant writing are two core professional skills for new scholars today However systematic training is not typically offered in graduate programs worldwide This book equips readers with the current scientific knowledge by providing a concise introduction to the science of journal article publication The overall structure generally matches the curriculum of a graduate course and each chapter features a learning sequence based on Daniel Kahneman s intuitive judgement theory The volume analyzes the intuitive thoughts of new authors from a variety of countries uses over fifty real life cases and focuses on core concepts from nearly 100 research articles It provides scientific advice for new authors junior researchers and graduate students to publish their scholarly work and advance their academic careers

**EBOOK: How to Win as a Final-Year Student** Phil Race, 2000-07-16 Final year undergraduates face a particular set of challenges What they do in their final year is critical to their futures They must cope with revision for final exams as well as completing coursework and sometimes working on extended dissertations or projects At the same time they need to be taking strategic decisions about their future careers Many will be handling job applications and interviews Others will be going through selection processes for entry into higher degrees With greater numbers of students entering higher education representing a broader cross section of the population than ever before the challenges of the final year cause most students some measure of stress and prove unmanageable for a significant number Because of larger class sizes in most institutions the amount of real help and support from academic staff to final year students is diminishing Many final year students will have read one of the many useful general study skills texts which are available However these books do not provide the depth of assistance or the range of coverage which final year students need How to Win as a Final Year Student is the first book to deal with the specific challenges faced by final year students It is strongly recommended that students be advised to read it at the beginning of their final year Topics covered by this book include How to think strategically about what you re doing How to plan your time in order to work successfully on several things at once Tackling big dissertations and projects Revision learning from past mistakes Managing stress Exam techniques for final exams including preparing for a viva Thinking about research and higher degrees Writing a CV Making job applications Preparing for interviews and tests

Research Methods: Masters and Phd Students Handbook Lucky Yona, 2020-12-01 This book is designed specifically for Master s degree and PhD students working on developing their thesis It is a practical book designed to guide students from the initial stages of research proposal preparation to final stages of thesis report writing It further gives proper guidance on how to approach the thesis defense and how one can go further in publication of articles in peer reviewed journals or turning the thesis to a book

**You Can Publish Your Journal Article** Gilbert C. Gee, 2023-11-27 You ve completed your research and want to publish it in a peer reviewed journal Author Gilbert C Gee is here to help sharing what he learned as a writer reviewer and Editor in Chief and calling on other journal editors to offer their advice You Can Publish Your Journal Article will not only help you

write your paper but more importantly be more likely to succeed in peer review The book has four main premises that writing involves a relationship between you and your readers and that your research joins an ongoing conversation in the field that good writing is rewriting and revision is critical that people who write daily are more productive than those who binge write and finally that persistency wins so don't give up when you get a rejection With chapters offering practical advice on selecting the right journal peer review the methods section displaying your data writing the results and discussion sections the book concludes with short essays from invited journal editors about how to avoid common mistakes and ensure success

Educational Research James B. Schreiber, Kimberly Asner-Self, 2011-08-24 Researchers finally have a resource that focuses on the research question providing them with a unique approach that will help in the field Key Ideas sections presented in each chapter act as an organising mechanism and look at the big picture of that chapter Many of the writing activities are open ended questions that allow them to write questions or what they are thinking about the topic at that point In Text Activities ask them to write down what they are working on such as a research question review of literature or potential sample Case study examples are also integrated throughout to demonstrate how decisions are made and how they affect everything in a study This enables researchers to create the most effective studies

**Online Searching** Karen Markey, 2015-07-23 Online Searching puts the aspiring librarian on the fast track to becoming an expert searcher who unites library users with trusted sources of information to answer their questions To accomplish this it ushers you through online searching as a seven step process 1 determining what the user really wants in the reference interview 2 identifying sources that are likely to produce relevant information for the user's query 3 dividing the query into big ideas and combining them logically 4 hypothesizing whether a known item or a subject will satisfy the query 5 representing the query as input to the search system 6 conducting the search and responding strategically and 7 displaying retrievals assessing them and responding tactically For key concepts Online Searching enlists multimedia representing visually what is difficult to convey via words alone When you analyze Online Searching's real search topics search online and compare your results with its suggested answers you'll experience the seven step online searching process first hand Included are specific recommendations about what you should teach end users about online searching and a method for quickly and efficiently familiarizing yourself with a new database and search system Including short video demonstrations Online Searching is your go to guidebook for ramping yourself up from novice to expert searcher
