Identified by CEV switches with blue horn button, A35 engine, pedal or kick, except 2007 is A55. Some components as ST (Formerly Targa), except for no turn signal equipment, not even wires. Functionally the same wiring as all other no-turn-signal models, 1992-later.

by S. Senanon Oct '99

Although it appears opposite, the color of the main plug is from the front, as if you opened it up a book. The front and back covers of the book would be the wires coming out the back, going into the page. Some of the branch points in the main harness may not be exact, but functionally they're the same.
