Warfare and the Age of Printing (4 vols.) Louis Sloos,2008-01-31 An important part of the Dutch national treasure of early printed books from before 1801 on military and related subjects is kept in military libraries and collections This catalogue contains 10 000 books in twelve different languages dated 1500 1800 from nine different Defence institutions collections representing both Army and Navy By far the largest collections are the property of the Royal Netherlands Army Museum in Delft and the Royal Netherlands Military Academy in Breda A great if not substantial part of these books is especially of international significance because of the contents the intrinsic value or as historical objects It took eight years to trace and describe these books all of which have been given extensive analytical bibliographic descriptions The book includes over 2000 illustrations The book is a project of the Royal Netherlands Army Museum Delft **Rome's Armies to the Death of**

Augustus Tony McArthur,2024-09-30 National armies as we know them today are a comparatively recent development It has been assumed that the Romans had an army similar to the national institutions of advanced almost exclusively European powers at the end of the nineteenth century But the assumption was wrong as is the belief that changes seen in the armies can be explained because the Romans reformed their armies Up to the death of Augustus the Romans had no permanent military forces Roman armies were raised for particular campaigns and disbanded at their conclusion Repeated campaigns were conducted in places like northern Italy and Spain but the armies were always disbanded These armies were not seen by Romans as part of a national institution as modern armies are they were simply a part of the life of a Roman citizen like religion or elections These armies were more like a militia than a national army There is little evidence even of systematic training and what changes can be detected can be better explained by contingent adaptation to circumstances rather than reform The emperor Augustus is commonly seen as the originator of the imperial armies but it was an unintended outcome of a long life **Visual Arts and the Auld Alliance** Bryony Coombs,2024-09-30 Explores the links between patronage identity and Franco Scottish relations in the late medieval and early modern periods This monograph is the first book length study of

Franco Scottish relations and the visual arts in the late medieval and early modern periods Offers new interdisciplinary approaches to Franco Scottish history that challenge traditional accounts where there has been a failure to investigate visual material Based on extensive archival research and making use of unknown and little known visual and archival evidence this work examines material from collections held in Scotland France the Netherlands and Italy Applies innovative interdisciplinary approaches combining patronage studies and a consideration of artistic agency It develops new methodologies combining art historical methods with insights drawn from political military and architectural histories and manuscript studies Forms a significant contribution to our understanding of the history of Scotland s place in Europe and the significance of its historic ties to France in particular This monograph provides the first substantial analysis of the visual arts commissioned by Scots in France prior to Mary Queen of Scots It examines how Scottish identity was represented and promoted through patronage of the visual arts Tying together previously unpublished archival documents with under researched visual and material culture this monograph examines how Scots used patronage to establish their place in French society thus furthering the reputation of the royal house of Scotland and progressing their own social political and diplomatic aims Incorporating analysis of grand architectural projects such as the foundation of the Sainte Chapelle at Vic le Comte and studies of extraordinary manuscripts such as the Monypenny Breviary and the military manuals of B rault Stuart this work highlights recurring themes within architectural history art history and material culture studies By addressing broader questions of Scotland s historic relations with Europe it makes a necessary contribution to modern day concerns
