The Oxford Handbook of Identity Development Kate C. McLean, Moin Syed, 2014-10-27 Identity is defined in many different ways in various disciplines in the social sciences and sub disciplines within psychology The developmental psychological approach to identity is characterized by a focus on developing a sense of the self that is temporally continuous and unified across the different life spaces that individuals inhabit Erikson proposed that the task of adolescence and young adulthood was to define the self by answering the question Who Am I There have been many advances in theory and research on identity development since Erikson's writing over fifty years ago and the time has come to consolidate our knowledge and set an agenda for future research The Oxford Handbook of Identity Development represents a turning point in the field of

identity development research Various and disparate groups of researchers are brought together to debate extend and apply Erikson's theory to contemporary problems and empirical issues The result is a comprehensive and state of the art examination of identity development that pushes the field in provocative new directions Scholars of identity development adolescent and adult development and related fields as well as graduate students advanced undergraduates and practitioners will find this to be an innovative unique and exciting look at identity development

Phenomenology World-Wide

Anna-Teresa Tymieniecka, 2014-11-14 Phenomenology is the philosophy of our times Through the entire twentieth century this philosophy unfolded and flourished following stepwise the intrinsic logic and dynamism of its original project as proposed by its founder Edmund Husserl Now its seminal ideas have been handed over to a new era The worldwide contributors to this volume make it manifest that phenomenological inspiration knows no cultural barriers It penetrates and invigorates not only philosophical disciplines but also most of the sectors of knowledge transforming our way of seeing the world our actions toward others and our lives Phenomenology's universal spread has however oftentimes diluted its original sense even beyond recognition and led to a weakening of its dynamics There is at present an urgent need to retrieve the original understanding of phenomenology to awaken its dormant forces and redirect them This is the aim of the present book resourcement and reinvigoration It is meant to be not only a reference work but also a guide for research and study To restore the authentic vision of phenomenology we propose returning to its foundational source in Husserl's project of a universal science unpacking all its creative capacities In the three parts of this work there are traced the stages of this philosophy's progressive uncovering of the grounding levels of reality ideal structures constitutive consciousness the intersubjective lifeworld and beyond The key concepts and phases of Husserl's thought are here exfoliated Then the thought of the movement's classical figures and of representative thinkers in succeeding generations is elucidated Phenomenology's geographic spread is reviewed We then proceed to the culminating work of this philosophy to the phenomenological life engagements so vigorously advocated by Husserl to the life significant issues phenomenology addresses and to how it has enriched the human sciences Lastly the phenomenological project's new horizons on the plane of life are limned horizons with so powerful a draw that they may be said not to beckon but to summon Here is the movement's vanguard This collection has 71 entries Each entry is followed by a relevant bibliography There is a helpful Glossary of Terms and an Index of Names
