Environmental Problem Solving A How To Guide Jeffrey W Hughes:

Environmental Problem Solving Jeffrey W. Hughes, 2013-08-02 As environmental problems become increasingly complex it is critical that students and activists learn the skills with which to address them Although there already are many case studies of actual issues only in the last few years have environmental scientists paid close attention to their resolution Environmental Problem Solving teaches these skills Jeffrey W Hughes creates an organized method for approaching problems understanding larger issues and crafting solutions to a wide range of contemporary environmental issues Many environmental activists often have preconceived ideas of environmental protection and problem solving They react emotionally to news of deforestation a new housing development or a planned big box store without thinking about the problem logically and they may automatically regard foresters development companies and corporations as opponents As their views harden discourse turns acrimonious and it becomes ever more difficult to find satisfactory solutions This book teaches those on both sides of the table to address their own preconceptions and approach hard issues critically methodically and fairly Hughes combines aspects of the decision making process from the fields of business management and communication science based on extensive research and ample practical experience in the field and classroom He creates a logical framework to help guide thinking from identifying a problem to finding its solution Using examples drawn from real life situations Environmental Problem Solving will become an invaluable guide for environmentalists agency professionals consultants students naturalists and concerned citizens *An Environmental Leader's Tool Kit* Jeffrey W.

Hughes, 2023-03-15 If you want to tackle an environmental problem in your neighborhood but do not know where to start *An Environmental Leader's Tool Kit* can help In this handbook Jeffrey W Hughes shares the proven strategies you need to step up and get meaningful action done From designing a pilot study to managing contentious public meetings and more Hughes walks you through the essentials of effective place based environmental efforts Among the tools you will find here are worksheets to kickstart brainstorming appendixes that demystify jargon you might encounter and illuminating real life examples Down to earth and stimulating *An Environmental Leader's Tool Kit* is a launchpad for those ready to make a difference now Choice, 2007 Abstracts of Public Administration, Development, and Environment, 2007 American Book Publishing Record, 1996-05 Resources in Education, 2001-04 Routledge Library Editions: Sustainability Various Authors, 2021-03-04 The 4 volumes in this set originally published between 1988 and 1997 draw together research by leading academics in the area of sustainability and provides a rigorous examination of related key issues The volumes examine environmental policy and plans for a sustainable future This set will be of particular interest to students of Environmental Studies **Policies for a Small Planet** Johan Holmberg, 2019-06-26 First published in 1992 The world is not living within its means Current development policies in both industrial and developing countries are wasting resources and destroying the commons on which we all depend The world is set on a path of deepening poverty and a deteriorating environment New

policies are needed to achieve sustainable development This book presents an integrated series of essays on the policies for sustainable development from one of the leading policy research institutes on environment and development issues It concentrates on the developing world and looks at the specific sectors to which the policies have to be applied Beginning with a discussion of what constitutes sustainable development it goes on to deal with the institutional arrangements needed to mobilise human resources for change and the economic policies for sustainable natural resource management It then examines the policies needed in agriculture urban development industry forests drylands energy use finance population and consumption Throughout it demonstrates how those directly involved are best placed to manage their environments and resources Policies must support the experience and resourcefulness of local people Sustainable development requires that they control their own futures This title will be of great interest to students of Environmental Studies *Catalog of*
