Deardorff, 2004-05-11 This volume collects selected papers on the European Union from the 13th Congress of the International Economic Association held in Lisbon September 2002. Globalization or Regionalization of the American and Asian Car Industry? M. Freyssenet, K. Shimizu, G. Volpato, 2003-04-15 The automobile sector is one of the most archetypal global industries and is seen by many as one of the main drivers behind the homogenisation of world markets due to firms' internationalization strategies and the social practices that firms impose. This book argues that this is not entirely the case due to the heterogeneity of firms and the diversity of strategies pursued. It highlights the diversity and forms of internationalization and the preference for regionalization rather than globalization that has occurred over the past decade. This book looks specifically at the American and Asian car industry. *Vehicle Refinement* Matthew

Harrison, 2004-10-04 High standards of NVH (Noise, Vibration and Harshness) performance are expected by consumers of all modern cars. Refinement is one of the main engineering and design attributes to be addressed in the course of developing new vehicle models and vehicle components. Written for students and engineering practitioners, this is the first book to address automotive NVH. It will help readers to understand and develop quieter, more comfortable cars. With chapters on the fundamentals of acoustics and detailed coverage of practical engineering solutions for noise control issues, it is suitable for students of automotive engineering and engineers who haven't been trained in acoustics and will be an important reference for practicing engineers in the motor industry. The first book devoted to the refinement of noise and vibration in automobiles. Combines a detailed explanation of the fundamentals of acoustics and the science behind vehicle noise and vibration with practical tips and know-how for noise and vibration control. Based on real-world experience with a variety of automotive companies including Ford, BMW and Nissan. *The Life of the Automobile* Steven Parissien, 2014-05-13 The Life of the Automobile is the first comprehensive world history of the car. The automobile has arguably shaped the modern era more profoundly than any other human invention and author Steven Parissien examines the impact, development and significance of the automobile over its turbulent and colorful 130-year history. Readers learn the grand and turbulent history of the motor

car from its earliest appearance in the 1880s as little more than a powered quadricycle and the innovations of the early pioneer carmakers. The author examines the advances of the interwar era, the Golden Age of the 1950s and the iconic years of the 1960s to the decades of doubt and uncertainty following the oil crisis of 1973, the global mergers of the 1990s, the bailouts of the early twenty-first century and the emergence of the electric car. This is not just a story of horsepower and performance but a tale of extraordinary people of intuitive carmakers such as Karl Benz, Sir Henry Royce, Giovanni Agnelli, Fiat, André Citroën and Louis Renault, of exceptionally gifted designers such as the eccentric Ohio-born Chris Bangle, BMW and of visionary industrialists such as Henry Ford, Ferdinand Porsche, the Volkswagen Beetle and Gene Bordinat, the Ford Mustang among numerous other game-changers. Above all, this comprehensive history demonstrates how the epic story of the car mirrors the history of the modern era from the brave hopes and soaring ambitions of the early twentieth century to the cynicism and ecological concerns of a century later. Bringing to life the flamboyant entrepreneurs, shrewd businessmen and gifted engineers that worked behind the scenes to bring us horsepower and performance, *The Life of the Automobile* is a globe-spanning account of the auto industry that is sure to rev the engines of entrepreneurs and gearheads alike. *Focus On: 100 Most Popular Station Wagons* Wikipedia contributors, [Autocar](#), 2006 [Automobile Engineering](#) EduGorilla Prep Experts, 2024-10-15.
