remarkable creativity of older adults This creativity is the consequence of the wisdom gained through years of experience but is also due to a newly developed capacity to adapt to unprecedented challenges integral to the aging process In Part 1 Capps illustrates the challenges of transitioning to older adulthood from the author's own experiences while in Part 2 he draws on material from Erik H Erikson Sigmund Freud and Paul W Pruyser to account for longevity adaptability and creativity in older adults Finally in part 3 he focusses on the work of both William James and Walt Disney to fashion a model of creative aging
