

Emergency Response Guide

WHAT YOU HEAR & WHAT YOU DO

Code Green

A Code Green (All Clear) is used when another emergency response is canceled, such as a Code Red, Code Yellow or Severe Weather Alert. Code Green is the normal (safe) condition we are in every day.

Activation method: Intercom announcement

What you will hear: **CODE GREEN: ALL CLEAR** (followed by additional instructions)

1. Wait for additional instructions from a recognized administrator or emergency responder.
2. Resume normal school activities only when directed to do so.

Code Yellow

A Code Yellow (Shelter in Place) is used when an incident is occurring outside near the school that requires police, medical or fire response.

Activation method: Intercom announcement

What you will hear: **SECURITY ALERT: CODE YELLOW**

1. If students are outside the school, bring them inside.
2. Close and lock exterior doors and windows. Place signage on main entrance to inform visitors that the school is currently in Code Yellow.
3. Continue normal school activities as scheduled unless otherwise directed via intercom.
4. Remain inside the building until Code Green "All Clear" announcement.

Code Red

A Code Red is used when an unauthorized intruder is threatening school safety.

Activation method: Intercom announcement

What you will hear: **SECURITY ALERT: CODE RED**

1. Immediately implement 4E intruder procedures (educate, evade, escape, engage).
2. If **Escape** option is chosen (run):
 - a. Leave belongings and exit the building as quickly and safely as possible.
 - b. Once outside, go to nearest Rally Point and begin taking attendance. Wait for further instructions from first responders.
 - c. Prepare for transportation to family Reunification Point.
3. If **Evade** option is chosen (hide):
 - a. Lockdown in nearest room. Close and lock doors/windows, lower blinds, turn lights off.
 - b. Place cabinets, tables or desks in front of door, and move everyone away from doors/windows. Remain quiet and alert.
 - c. If door has a window, go where you cannot be seen through the window.
 - d. Take attendance including anyone missing.
 - e. Do not allow anyone to leave and do not open the door for anyone, even if the fire alarm sounds. If it is a true fire emergency, an announcement will be made over the intercom to evacuate the building.
 - f. Wait for Code Green followed by further instructions via intercom, or until police arrive at your door using proper identification.
4. If **Engage** option is chosen (fight):
 - a. Assertively use all means possible to disrupt or distract intruder.
 - b. Use noise, movement, distance or improvised weapons to your advantage and escape if safe to do so.
 - c. If able to overpower the intruder, hold the person down until help arrives.
 - d. Disarm intruder if possible, but do not attempt to use the weapon. Place in secure location such as trash can until police arrive.

Severe Weather

A Severe Weather Alert is used when students and staff need to take cover due to severe weather such as a Tornado Warning.

Activation method: Intercom announcement

What you will hear: **SEVERE WEATHER ALERT: PLEASE TAKE COVER**

1. Proceed immediately to designated severe weather shelter locations.
2. Do not allow anyone to stop for personal items, restroom use, etc.
3. Last person out of the room must close the door.
4. Once in shelter location, teachers take attendance and report any missing, injured or additional students to a school Crisis Team member.
5. Unless otherwise directed, instruct students to "duck and cover" under desks or facing a wall.
6. Remain in shelter location until Code Green "All Clear" announcement.

IF IT'S AN EMERGENCY, REMEMBER TO CALL 911.

Guide 173 Emergency Responsc

**CCPS (Center for Chemical Process
Safety)**

Guide 173 Emergency Response:

Evidence-Based Practice for Public Health Emergency Preparedness and Response National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Population Health and Public Health Practice, Board on Health Sciences Policy, Committee on Evidence-Based Practices for Public Health Emergency Preparedness and Response, 2020-11-28 When communities face complex public health emergencies state local tribal and territorial public health agencies must make difficult decisions regarding how to effectively respond The public health emergency preparedness and response PHEPR system with its multifaceted mission to prevent protect against quickly respond to and recover from public health emergencies is inherently complex and encompasses policies organizations and programs Since the events of September 11 2001 the United States has invested billions of dollars and immeasurable amounts of human capital to develop and enhance public health emergency preparedness and infrastructure to respond to a wide range of public health threats including infectious diseases natural disasters and chemical biological radiological and nuclear events Despite the investments in research and the growing body of empirical literature on a range of preparedness and response capabilities and functions there has been no national level comprehensive review and grading of evidence for public health emergency preparedness and response practices comparable to those utilized in medicine and other public health fields Evidence Based Practice for Public Health Emergency Preparedness and Response reviews the state of the evidence on PHEPR practices and the improvements necessary to move the field forward and to strengthen the PHEPR system This publication evaluates PHEPR evidence to understand the balance of benefits and harms of PHEPR practices with a focus on four main areas of PHEPR engagement with and training of community based partners to improve the outcomes of at risk populations after public health emergencies activation of a public health emergency operations center communication of public health alerts and guidance to technical audiences during a public health emergency and implementation of quarantine to reduce the spread of contagious illness **Fire Safety Management Handbook, Third Edition** Daniel E.

Della-Giustina, 2014-02-07 Safety managers today are required to go beyond compliance with the latest fire codes to implement proactive fire safety management programs that improve profitability By reducing property loss insurance premiums and fostering an efficient work environment to help realize quality gains safety managers can add to the bottom line however they need a solid understanding of the duties and responsibilities for which they are accountable The Fire Safety Management Handbook is every safety manager s must have guide for developing a successful fire safety management program Emphasizing proactive fire safety activities that achieve optimal results the text presents the key elements that comprise an effective fire safety management program including a basic knowledge of Types and functions of fire control equipment Identification and control of hazardous materials Homeland security during disasters and emergencies Fire chemistry building construction and efforts to reduce losses due to fire Commonly installed fire detection systems and their

maintenance and inspection National Fire Codes NFPA and federal state and local legislation and enforcement Available resources fire safety organizations and the United States Fire Administration USFA To provide current and future safety professionals with a better understanding of emergency management within the fire safety discipline each chapter of the Third Edition includes learning objectives at the beginning and questions at the end Case studies have been added codes and standards have been updated and a new chapter on emergency response planning has been included Plus a school fire safety plan that can be used as a template is now part of the appendices Guidelines for Safe Process Operations and Maintenance CCPS (Center for Chemical Process Safety),1995-03-15 First line managers have to maintain the integrity of facilities control manufacturing processes and handle unusual or emergency situations as well as respond to the pressures of production demand On a daily basis they are closest to the operating personnel who may be injured by a process accident and they are in the best position to spot problem conditions and to act to contain them This book offers these managers how to information on process safety management program execution in the operations and maintenance departments recommending technical and administrative process safety activities for the entire life cycle of the plant Helpful tables and references add to the value of this process safety resource A Legal Guide to Homeland Security and Emergency Management for State and Local Governments Ernest B. Abbott,2005 This book provides a number of windows into homeland security and emergency management law covering both the basic structure of the homeland security and emergency management system and presenting detailed analysis of specific areas such as applying for federal preparedness funds negotiating intergovernmental agreements applying for disaster assistance and managing the impact of catastrophic events
