History of Civilizations Mayson Kirby, 2018-08-11. The History of Civilizations traces the history of man in this vast region from the Palaeolithic beginnings to circa 700 B.C. when the foundations for the formation of the great Empire were laid. Many different elements must come together before a human community develops to the level of sophistication commonly referred to as civilization. The first is the existence of settlements classifiable as towns or cities. This requires food production to be efficient enough for a large minority of the community to be engaged in more specialized activities such as the creation of imposing buildings or works of art, the practice of skilled warfare, and above all, the administration of a centralized bureaucracy capable of running the machinery of state. Despite the major role played by Central Asia in shaping the history of the past and of today, this vast region stretching from the Caspian Sea to Mongolia and western China had not been studied as a whole cultural entity in time and space. This multi-volume History of Civilizations of Central Asia, published in English, is the first attempt to present a comprehensive picture of the cultures that flourished and vanished at the heart of the Eurasian continent from the dawn of civilization to the present day. The book is an engaging and thought-provoking philosophical account that demonstrates that critical inquiry is an ongoing process with strains of continuity and evolution of Civilizations.
