How To Check My Admission Status At Turfloop:

The Law and the Prophets Daniel R. Magaziner, 2010 No nation can win a battle without faith Steve Biko wrote and as Daniel R Magaziner demonstrates in *The Law and the Prophets* the combination of ideological and theological exploration proved a potent force The 1970s are a decade virtually lost to South African historiography This span of years bridged the banning and exile of the country's best known anti-apartheid leaders in the early 1960s and the furious protests that erupted after the Soweto uprisings of June 16 1976 Scholars thus know that something happened yet they have only recently begun to explore how and why *The Law and the Prophets* is an intellectual history of the resistance movement between 1968 and 1977 it follows the formation early trials and ultimate dissolution of the Black Consciousness movement It differs from previous anti-apartheid historiography however in that it focuses more on ideas than on people and organizations Its singular contribution is an exploration of the theological turn that South African politics took during this time Magaziner argues that only by understanding how ideas about race faith and selfhood developed and were transformed in this period might we begin to understand the dramatic changes that took place Publisher description [Investigating Corruption and White-collar Crime in South African Higher Education](#) Bethuel Sibongiseni Ngcamu, 2025-10-16 Using an interpretivist approach this qualitative volume interrogates instances of corruption and white collar crime prevalent in South African higher education institutions and suggests pathways for the proactive detection and prevention of corrupt practices Contextualizing the author's practical experiences gained in the higher education sector over the past two decades this book employs an ethnographical method to explore the complexity of university systems structures and functions that make South Africa's formerly disadvantaged universities more susceptible to corruption In the midst of highly contested divisive and highly politicized ways of reporting corruption in the media chapters provide critical analyses guided by scientific approaches robust data sets and qualitative face to face interviews to underpin the reliability of proposed policy amendments intended to detect and prevent corruption and white collar crime as well as the suggested closure of loop holes that make the sector vulnerable to and known for a high level of criminality Making a substantial contribution to broader academic debate around corruption and university management internationally this book will be of interest to researchers and postgraduate students in the field of higher education higher education management and administration and education policy and politics Policy makers in both the Global South and North are also likely to benefit from this book **South African Pressclips**, 1987

[Looking Through Philosophy in Black](#) Mabogo Percy More, 2018-12-11 This autobiography is a series of interrelated true life events and decisions taken by a black philosopher that highlight the human drama unfolding in the inferno of the South African apartheid system Mabogo More details what it means to be a black philosopher in an anti black apartheid academic world More's life story traces his emergence in philosophy and his pursuit of a philosophical dream a dream that takes him from his South African black ghetto township to American and British universities and finally to the prestigious Frantz Fanon

Lifetime Achievement award His extraordinary philosophical autobiography with an emphasis on Africana existentialism that takes into account issues of racism identity liberation freedom alienation responsibility and bad faith is supplemented by three key essays from his intellectual career representing the extraordinary contribution he has made to Africana philosophy and black existentialism *Facts & Reports* ,1993 Press cuttings on Angola Mozambique Guinea Bissau Portugal Southern Africa Political Science in South Africa Peter Vale,Pieter Fourie,2016-01-13 In 2013 and in 2014 respectively the South African Association of Political Studies SAAPS and Politikon the South African Journal of Political Studies celebrate their 40th anniversary Also in April 2014 South Africa celebrates twenty years since the advent of the post Apartheid democracy and the birth of the rainbow nation This book provides a timely account of the birth and evolution of South African politics over the past four decades but also of the study of Political Science and International Relations in this country Fourteen political scientists contribute chapters to this volume situating the study of politics within its global context and recounting the development of politics as a field of study at South African universities The fourteen contributions evaluate the state of the discipline s and suggest conclusions that are surprising and in many instances unsettling not only with regards to what and how politics is taught but also how its study has variously gained and lost pertinence for South Africans understanding of their own polity as well as its place in the world The implications are uncomfortable and pose interesting challenges for South African scholarship pedagogy and national self reflection This book was published as a special issue of Politikon *Drum* ,2007 *Race Relations News* ,1972 **Leadership** ,1988 *Southern African Liberation Struggles* A.
