**The Beauty of Baudelaire** Roger Pearson, 2021-09-16 This book offers the first comprehensive close reading in any language of the complete works of Charles Baudelaire 1821-1867 Taking full account of his critical writings on literature and the fine arts it provides fresh readings of Les Fleurs du Mal and Le Spleen de Paris It situates these works within the context of nineteenth century French literature and culture and reassesses Baudelaire's reputation as the father of modern poetry Whereas he is traditionally considered to have rejected the public role of the writer as moralist educator and political leader and to have dedicated himself instead to the exclusive pursuit of beauty in art this book contends not only that he rejected Art for Art's sake but that he saw in beauty defined not as an inherent quality but as an effect of harmony and rich conjecture an alternative ethos with which to resist the tyrannies of ideology and conformism Contrarian in his thinking and provocatively innovative in his poetic practice Baudelaire fell foul of the law when six poems in Les Fleurs du Mal 1857 were banned for obscenity In the second edition 1861 substantially recast and enlarged the poet as alternative lawgiver made plainer still his resistance to the orthodoxies of his day In a series of major critical articles he proclaimed the government of the imagination while from 1855 until his death he developed an alternative literary form the prose poem a thing of beauty and an invitation to imagine the world afresh to make our own rules
