La gestion de l'eau selon l'Islam Asit K. Biswas, Murad J. Bino, Naser I. Faruqi, 2003

Au Moyen Orient et en Afrique du Nord l'eau devient l'enjeu crucial du développement La région est caractérisée par l'un des taux moyens de croissance démographique les plus élevés du monde et par des ressources en eau peu abondantes Dans cette région et dans d'autres les responsables des politiques ont souvent proposé voire tenté de mettre en œuvre des politiques de gestion de la demande en eau par exemple des tarifs plus élevés ou la privatisation sans prendre en compte la culture et les valeurs locales Pourtant la culture largement marquée par la religion influence manifestement

De l'islam d'hier et d'aujourd'hui Mohamed Cherif Ferjani, 2025-08-14 Ce livre regroupe des réflexions laborées dans des contextes différents Elles ont en commun le souci d'historiciser ce qui est souvent présenté comme des catégories consubstantielles de l'islam ou des traits essentiels d'une religion sans effet de l'histoire sur elle et sans rapport avec les réalités des sociétés qui se transforment et au sein desquelles elle est apparue et elle évolue Certains textes concernent la période classique des débuts de l'islam la fin de ce qui est présenté comme l'âge d'or de la civilisation arabo-musulmane d'autres portent plus sur la période contemporaine marquée par des rapports contradictoires avec les évolutions des temps modernes Il ne s'agit pas d'une étude exhaustive des faits islamiques mais de réflexions sur des questions particulières concernant tel ou tel aspect des réalités passées et présentes de l'islam

La connaissance de l'Islam dans l'Occident médiéval Marie-Thérèse d'Alverny, Charles Burnett, 2024-10-28 This volume the second in the series of Marie Thérèse d'Alverny's selected articles to be published by Variorum gathers the majority of her studies on the understanding of Islam in the West from the early Middle Ages until the mid 13th century some related works will be included in a further selection In the 12th century as she shows a serious effort was for the first time made to learn something of the reality behind the fabulous and scurrilous stories about Muhammad and Islam A collection of translations from Arabic including the Koran was commissioned in 1140 by Peter the Venerable of Cluny and d'Alverny found the manuscript in which his secretary wrote these out This discovery led her to explore other translations into Latin of the Koran and other Islamic texts to identify the work of the translators Hermann of Carinthia Robert of Ketton and Mark of Toledo and to depict the milieu in which this work was possible

L' Islam Et la RZforme Victor Segesvary, 2002 This important study brings to light a little known but essential moment in the relations between Islam and Christianity the history of the 1542 publication of the Quaran Koran in Latin in Venice and Basel and the controversy surrounding the emergence of this work in religious reform circles This research relates the origins of European attitudes of tolerance to the Reformation and the reformers specific interest in non traditional religious theology and secular philosophy The Koran proved to be a major though overlooked element in this movement toward cultural heterodoxy
