was a surprise more profound to the learned than even the error it displaced The possibility of a short passage westward to Cathay was important to merchants and adventurers startling to courtiers and ecclesiastics but to men of classical learning it was only a corroboration of the teaching of the ancients That a barrier to such passage should be detected in the very spot where the outskirts of Asia had been imagined was unexpected and unwelcome The treasures of Mexico and Peru could not satisfy the demand for the products of the East Cortes gave himself in his later years to the search for a strait which might yet make good the anticipations of the earlier discoverers The new interpretation if economically disappointing had yet an interest of its own Whence came the human population of the unveiled continent How had its existence escaped the wisdom of Greece and Rome Had it done so Clearly since the whole human race had been renewed through Noah the red men of America must have descended from the patriarch in some way at some time the New World had been discovered and populated from the Old Had knowledge of this event lapsed from the minds of men before their memories were committed to writing or did reminiscences exist in ancient literatures overlooked or misunderstood by modern ignorance Scholars were not wanting nor has their line since wholly failed who freely devoted their ingenuity to the solution of these questions but with a success so diverse in its results that the inquiry is still pertinent especially since the pursuit even though on the main point it end in reservation of judgment enables us to understand from what source and by what channels the inspiration came which held Columbus so steadily to his westward course
