 Onvural,Arne Nilsson,2012-12-06 There are many exciting trends and developments in the communications industry several
 of which are related to advances in fast packet switching multi media services asynchronous transfer mode ATM and high
 speed protocols It seems fair to say that the face of networking has been rapidly changing and the distinction between LANs
 MANs and WANs is becoming more and more blurred It is commonly believed in the industry that ATM represents the next
 generation in networking The adoption of ATM standards by the research and development community as a unifying
 technology for communications that scales from local to wide area has been met with great enthusiasm from the business
 community and end users Reflecting these trends the technical program of the First International Conference on LAN
 Interconnection consists of papers addressing a wide range of technical challenges and state of the art reviews We are
 fortunate to have assembled a strong program committee expert speakers and panelists We would like to thank Professor
 Schwartz for his keynote speech We would like to thank Professor Yannis Viniotis and his students for the preparation of the
