**Festivals and the City** Andrew Smith, Guy Osborn, Bernadette Quinn, 2022-08-23 This book explores how festivals and events affect urban places and public spaces with a particular focus on their role in fostering inclusion The festivalisation of culture politics and space in cities is often regarded as problematic but this book examines the positive and negative ways that festivals affect cities by examining festive spaces as contested spaces The book focuses on Western European cities a particularly interesting context given the social and cultural pressures associated with high levels of immigration and concerns over the commercialisation and privatisation of public spaces The key themes of this book are the quest for more inclusive urban spaces and the contested geographies of festival spaces and places Festivals are often used by municipal authorities to break down symbolic barriers that restrict who uses public spaces and what those spaces are used for However the rise of commercial festivals and ticketed events means that they are also responsible for imposing physical and financial obstacles that reduce the accessibility of city parks streets and squares Alongside addressing the contested effects of urban festivals on the character and inclusivity of public spaces the book addresses more general themes including the role of festivals in culture led regeneration Several chapters analyse festivals and events as economic development tools and the book also covers contested representations of festival cities and the ways related images and stories are used in place marketing A range of cases from Western Europe are used to explore these issues including chapters on some of the world's most significant and contested festival cities Venice Edinburgh London and Barcelona The book covers a wide range of festivals including those dedicated to music and the arts but also events celebrating particular histories identities and pastimes A series of fascinating cases are discussed from the Venice Biennale and Dublin Festival of History to Rotterdam's music festivals and craft beer

festivals in Manchester The diverse and innovative qualities of the book are also evident in the range of urban spaces covered obvious examples of public spaces such as parks streets squares and piazzas are addressed but the book includes chapters on enclosed public spaces e g libraries and urban blue spaces waterways too This reflects the interpretation of public spaces as socio material entities they are produced informally through their use including for festivals and events as well as through their formal design and management

*After the Revolution* Jessica Greenberg,2014-05-07 What happens to student activism once mass protests have disappeared from view and youth no longer embody the political frustrations and hopes of a nation After the Revolution chronicles the lives of student activists as they confront the possibilities and disappointments of democracy in the shadow of the recent revolution in Serbia Greenberg s narrative highlights the stories of young student activists as they seek to define their role and articulate a new form of legitimate political activity post socialism When student activists in Serbia helped topple dictator Slobodan Milosevic on October 5 2000 they unexpectedly found that the post revolutionary period brought even greater problems How do you actually live and practice democracy in the wake of war and the shadow of a recent revolution How do young Serbians attempt to translate the energy and excitement generated by wide scale mobilization into the slow work of building democratic institutions Greenberg navigates through the ranks of student organizations as they transition their activism from the streets back into the halls of the university In exploring the everyday practices of student activists their triumphs and frustrations After the Revolution argues that disappointment is not a failure of democracy but a fundamental feature of how people live and practice it This fascinating book develops a critical vocabulary for the social life of disappointment with the aim of helping citizens scholars and policymakers worldwide escape the trap of framing new democracies as doomed to failure

**Stamp Collecting** ,1958      **Musical Field** ,1921      **A Sense of Presence** Stephen H. Smith,2016-09-15 Divided into five parts A Sense of Presence explores the central thesis that the resurrection of Jesus could be explained as a psychological event involving one hallucination possibly occurring to Peter and a hysterical reaction by colleagues which convinced them that Jesus had appeared to them too This approach is justified by showing that claims made by often impressionable people to have witnessed supernatural events in more recent times such as visions of the Virgin Mary or weeping statues have usually attracted a similar hysterical reaction involving large numbers Some of these reactions take hold sufficiently strongly to facilitate the development of new sects or movements which persist even when their credibility is challenged The remaining four parts set this thesis in context Part 1 shows that resurrection was already a widely accepted concept in the socio cultural world in which Jesus was born Part 2 deals with the New Testament accounts of the resurrection showing that they are often contradictory Part 4 presents and discusses the philosophical problems involved in a psycho physical person rising from the dead while Part 5 looks at the historical and theological issues associated with such an event The argument presented is not intended to be dogmatic but simply seeks to show that naturalistic alternative explanations to the one generally accepted by believers should be given far more attention

than they usually receive A Sense of Presence invites readers to challenge the status quo and will appeal to those wishing to challenge generally accepted Christian views *Festival and Event Management in Nordic Countries* Tommy D.

Tourism in National Capitals and Global Change Robert Maitland, 2014-10-14 At a time of increasing city competition national capitals are at the forefront of efforts to gain competitive advantage for themselves and their nation to project a distinctive and positive image and to score well in global city league tables They are frequently their country s main tourist gateway and their success in attracting visitors is inextricably linked with that of the nation They attract not just leisure visitors they are especially important in other growing tourism markets for example as centres of power they feature strongly in business tourism as academic centres they are important for educational tourism and they frequently host global events such as the Olympic Games And there are more of them first the number of capitals has grown as the number of nation states has increased and secondly pressures for devolution mean more cities are seeking national capital status even when they are not at the head of independent states We need to understand tourism in capitals better but there has been little research in the past This book develops new insights as it explores the phenomenon of capital city tourism and uses recent research to examine the appeal of capitalness to tourists and explore developments in capitals across the world This book was published as a special issue of *Current Issues in Tourism*

*Ultra-Nationalism and Hate Crimes in Contemporary Russia* Galina Kozhevnikova, 2012-02-27 This book is a collection of the 2004 2005 and 2006 annual reports as well as some additional statistics on 2007 compiled by Moscow s SOVA Center for Information and Analysis The reports are devoted to such issues as political nationalism hate crimes the use of police administrative political and social tools to counteract xenophobic violence and the Russian authorities abuse of laws designed to counteract extremism i e their cynical exploitation of this legislation for their own political purposes Already in the middle of this decade all of these problems were known to pose a certain threat to Russian society In spite of the considerable public attention they received since then only few effective measures have been taken and thus the situation is getting worse The level of racist violence is increasing further

and the spectrum of ultra nationalist groups is consolidating Moreover representatives of the political elite have started to adopt cryptic and sometimes overtly xenophobic rhetoric At the same time the government s current office holders actively utilize anti extremist legislation to unlawfully restrict not only ultra nationalist groups but also the rights and liberties of other non governmental and political organizations      *Musical West, Music and the Dance* ,1926      *Music News* ,1929
