Subcommittee on Interior, Environment, and Related Agencies, 2010 ContamiNation McKay Jenkins, 2016-01-26 An investigation into the dangers of the chemicals present in our daily lives along with practical advice for reducing these toxins in our bodies and homes from acclaimed journalist McKay Jenkins A few years ago journalism professor McKay Jenkins went in for a routine medical exam What doctors found was not routine at all a tumor the size of a navel orange was lurking in his abdomen When Jenkins returned to the hospital to have the tumor removed he was visited by a couple of researchers with clipboards They had some questions for him Odd questions How much exposure had he had to toxic chemicals and other contaminants Asbestos dust Vinyl chlorine Pesticides A million questions all about seemingly obscure chemicals Jenkins an exercise nut and an enviro conscious organic garden kind of guy suddenly realized he d spent his life marinating in toxic stuff from his wall to wall carpeting to his dryer sheets to his drinking water And from the moment
