

# GRE AWA MODEL ESSAYS

Topics in the following list may appear in your actual test. You should become familiar with this list before you take the GRE-AWA test. Remember that when you take the test you will not have a choice of topics. You must write only on the topic that is assigned to you.

## *The Pool of Issue Topics*

*Present your perspective on the issue below, using relevant reasons and/or examples to support your views.*

### *Issue 1*

*"We can usually learn much more from people whose views we share than from people whose views contradict our own."; disagreement can cause stress and inhibit learning."*

Do we learn more from people whose ideas we share in common than from those whose ideas contradict ours? The speaker daims so, for the reason that disagreement can cause stress and inhibit learning. I concede that undue discord can impede learning. Otherwise, in my view we learn far more from discourse and debate with those whose ideas we oppose than from people whose ideas are in accord with our own.

Admittedly, under some circumstances disagreement with others can be counterproductive to learning. For supporting examples one need look no further than a television set. On today's typical television or radio talk show, disagreement usually manifests itself in meaningless rhetorical bouts and shouting matches, during which opponents vie to have their own message heard, but have little interest either in finding common ground with or in acknowledging the merits of the opponent's viewpoint. Understandably, neither the combatants nor the viewers learn anything meaningful. In fact, these battles only serve to reinforce the predispositions and biases of all concerned. The end result is that learning is impeded.

Disagreement can also inhibit learning when two opponents disagree on fundamental assumptions needed for meaningful discourse and debate. For example, a student of paleontology learns little about the evolution of an animal species under current study by debating with an individual whose religious belief system precludes the possibility of evolution
