# IELTS Writing Task 1: Bar Chart #1

Write a report describing the information in the chart below.  
Write at least 150 words.

Sandwich Spread Purchases at a Supermarket

- **Complete the sample answer by circling the correct words.**

The bar chart (1)\_\_\_\_\_ the number of jars of peanut butter sold at a supermarket during a five-year period (from 2012 to 2016) with the number of jars of jelly sold during the same time period.

Overall, the chart (2)\_\_\_\_\_ an increase in the sales of the two sandwich spreads with the number of jelly purchases generally (3)\_\_\_\_\_ than those of peanut butter.

Sales of peanut butter were (4)\_\_\_\_\_ in 2012, with fewer than forty jars purchased. Sales then (5)\_\_\_\_\_ increased to over eighty jars sold in 2014, when it outsold jelly. However, in the following year, sales of peanut butter fell dramatically to less than sixty jars sold. Sales then recovered in the following year, in 2016, and rose to about ninety jars purchased.

A similar pattern can be seen with jelly sales, except for the year 2014 when (6)\_\_\_\_\_ jars of jelly (7)\_\_\_\_\_ than peanut butter (less than eighty jars compared to more than eighty jars). As with peanut butter sales, jelly sales fell in 2015 (down to about seventy-five jars); nevertheless, (8)\_\_\_\_\_ people bought jelly in 2016 (over a hundred jars) than in any previous year.

**Applications of Pattern-driven Methods in Corpus Linguistics** Joanna Kopaczyk, Jukka Tyrkkö, 2018-03-15 The use of corpora has conventionally been envisioned as being either corpus based or corpus driven While the formal definition of the latter term has been widely accepted since it was established by Tognini Bonelli 2001 it is often applied to studies that do not in fact fulfil the fundamental requirement of a theory neutral starting point This volume proposes the term pattern driven as a more precise alternative The chapters illustrate a variety of methods that fall under this broad methodology such as the extraction of lexical bundles POS grams and semantic frames and demonstrate how these approaches can uncover new understandings of both synchronic and diachronic linguistic phenomena

Handbook of Second Language Assessment Dina Tsagari, Jayanti Banerjee, 2016-03-07 Second language assessment is ubiquitous. It has found its way from education into questions about access to professions and migration. This volume focuses on the main debates and research advances in second language assessment in the last fifty years or so, showing the influence of linguistics, politics, philosophy, psychology, sociology, and psychometrics. There are four parts which, when taken together, address the principles and practices of second language assessment while considering its impact on society. Read separately, each part addresses a different aspect of the field. Part I deals with the conceptual foundations of second language assessment with chapters on the purposes of assessment and standards and frameworks as well as matters of scoring, quality assurance, and test validation. Part II addresses the theory and practice of assessing different second language skills, including aspects like intercultural competence and fluency. Part III examines the challenges and opportunities of second language assessment in a range of contexts. In addition to chapters on second language assessment on a national scale, there are chapters on learning-oriented assessment as well as the uses of second language assessment in the workplace and for migration. Part IV examines a selection of important issues in the field that deserve attention. These include the alignment of language examinations to external frameworks, the increasing use of technology to both deliver and score second language tests, the responsibilities associated with assessing test takers with special needs, the concept of voice in second language assessment, and assessment literacy for teachers and other test and score users.

*The Routledge Handbook of Second Language Acquisition and Language Testing* Paula Winke, Tineke Brunfaut, 2020-12-28 This Handbook with 45 chapters, written by the world's leading scholars in second language acquisition (SLA) and language testing, dives into the important interface between SLA and language testing, shared ground where researchers seek to measure second language performance to better understand how people learn their second languages. The Handbook also reviews how to best measure and evaluate the second language (L2) learners' personal characteristics, backgrounds, and learning contexts to better understand their L2 learning trajectories. Taking a transdisciplinary approach to research, the book builds upon recent theorizing and measurement principles from the fields of applied linguistics, cognitive science, psychology, psycholinguistics, psychometrics, educational measurement, and social psychology. The Handbook is divided into six key sections: 1. Assessment concepts for SLA researchers; 2. Building instruments for SLA research; 3. Measuring individual differences; 4. Measuring language development; 5. Testing specific populations; and 6. Measurement principles for SLA researchers.

Examining Writing Stuart D. Shaw, Cyril J. Weir, 2007-07-05 Test developers need to provide a clear explication of the language ability constructs that underpin the tests they offer in the public domain; such an explication is essential for supporting claims about the validity or usefulness of test scores. This volume describes the theory and practice of Cambridge ESOL's approach to assessing second language writing ability. A comprehensive test validation framework is used to examine the tasks in Cambridge ESOL writing tests from a number of different validity perspectives that reflect the socio-cognitive nature of any

assessment event The authors show how an understanding and analysis of the framework and its components can assist test developers to operationalise their tests more effectively especially in relation to the key criteria that differentiate one proficiency level from another The book provides an up to date review of relevant literature on assessing writing an accessible and systematic description of the different proficiency levels in second language writing a comprehensive and coherent basis for validating tests of writing This volume is a rich source of information on all aspects of examining writing ability As such it will be of considerable interest to examination boards who wish to validate their own writing tests in a systematic and coherent manner as well as to academic researchers and students in the field of language assessment more generally

**Book jacket** *Chinese Students' Writing in English* Maria Leedham, 2014-08-27 Chinese students are the largest international student group in UK universities today yet little is known about their undergraduate writing and the challenges they face Drawing on the British Academic Written English corpus a large corpus of proficient undergraduate student writing collected in the UK in the early 2000s this study explores Chinese students written assignments in English in a range of university disciplines contrasting these with assignments from British students The study is supplemented by questionnaire and interview datasets with discipline lecturers writing tutors and students and provides a comprehensive picture of the Chinese student writer today Theoretically framed through work within academic literacies and lexical priming the author seeks to explore what we know about Chinese students writing and to extend these findings to undergraduate writing more generally In a globalized educational environment it is important for educators to understand differences in writing styles across the student body and to move from the widespread deficit model of student writing towards a descriptive model which embraces different ways of achieving success Chinese Students Writing in English will be of value to researchers EAP tutors and university lecturers teaching Chinese students in the UK China and other English or Chinese speaking countries

**Resources, Creativity and Innovative Methodologies in Language Teaching and Learning** Adriana Teresa Damascelli, 2017-06-20. The concept of university language centres has changed in recent decades. Initially conceived as laboratories for practical and autonomous language learning, they are now considered as places with more specific and complex functions in language teaching and learning. University language centres now constitute networks for exchanging knowledge and know how in order to respond to ever-changing multilingual and multicultural contexts. At the same time, the availability and acquisition of new technologies is contributing to the creation of new tools for the provision of appropriate services and training. This collection covers a wide range of topics related to the activities, experiences and applied research carried out in Italian university language centres. It provides further evidence of the important role university language centres play in promoting language expertise, developing tools and adopting digital resources and providing support and training for language teaching. Technology, creativity, methodologies and plurilingualism are key topics in the book as they constitute the essential ingredients for effective and successful language teaching and learning. The volume's thirty-three chapters provide multi-perspective approaches showing how the real contexts of current language education need the integration of theoretical backgrounds with the best practices resulting from practical experience. **Global Perspectives**

**on Language Assessment** Spiros Papageorgiou, Kathleen M. Bailey, 2019-02-07. The sixth volume in the Global Research on Teaching and Learning English series offers up-to-date research on the rapidly changing field of language assessment. The book features original research with chapters reporting on a variety of international education settings from a range of diverse perspectives. Covering a broad range of key topics including scoring processes, test development and student and teacher perspectives, contributors offer a comprehensive overview of the landscape of language assessment and discuss the consequences and impact for learners, teachers, learning programs and society. Focusing on the assessment of language proficiency, this volume provides an original compendium of cutting-edge research that will benefit TESOL and TEFL students, language assessment scholars and language teachers. *The Routledge Handbook of Second Language Acquisition and Listening* Elvis Wagner, Aaron Olaf Batty, Evelina Galaczi, 2024-07-29. The Routledge Handbook of Second Language Acquisition and Listening offers a state-of-the-art systematic discussion of the role of listening in second language acquisition.

SLA and use This handbook positions listening not just as a receptive comprehension skill but also as an integral part of interaction a vital component in the process of language acquisition and a skill which needs attention in its own right World leading international scholars synthesize and contextualize the salient theoretical approaches methodological issues empirical findings practical applications and emerging themes in L2 listening development and processing They illustrate the role that L2 listening ability plays in understanding SLA and interactional competence and set the future research agenda to move the field forward This volume is an indispensable resource to students scholars and practitioners from the fields of SLA cognitive psychology language teaching and assessment as well as those interested in pronunciation speaking and oral communication
