Grammar in ELT and ELT Materials Graham Burton, 2023-06-06 This book investigates the content of the grammar syllabus typically employed in mainstream English Language Teaching. Using a mixed methods approach, the author examines how the syllabuses used in coursebooks are actually constructed, how they evolved, and how valid their contents are as a basis for teaching. The research reported consists of a broad exploration of primary sources in order to outline the evolution of ELT pedagogical grammar, ten interviews with key ELT authors and publishing professionals which allows for the investigation of the decision-making processes underlying the choice of grammar content in ELT teaching materials, and finally the presentation of case studies which examine three areas of grammar, analysing the evolution of their treatment in ELT materials, both historical and contemporary, and comparing their current treatment to data on real learner use. This book contributes to the literature on syllabus design and pedagogical grammar and builds on existing research into materials design. It will be of interest to researchers and professionals working in the fields of applied linguistics, pedagogical grammar, curriculum design, and materials design.

Translation and Own-language Activities Philip Kerr, 2014-03-27 Translation and Own language Activities provides structured practical advice and guidance for using students' own languages within the ELT classroom. Translation and Own language Activities provides structured practical advice and guidance for using students' own languages within ELT classrooms. Taking into account both the growing interest and concerns about use of translation in English lessons, the book presents effective ways of integrating carefully chosen activities covering themes such as tools, language skills, language focus, and techniques. The practical activities range from using bilingual dictionaries to translating long texts with a number of tasks drawing on easy-to-use web tools. The book also considers the relationship between translation and intercultural understanding.
