# What Is Velocity?

Suppose that two birds leave the same tree at the same time. They both fly at 10 knyh for 5 min, then 5 knyh for 10 min. However, they don't end up in the same place. Why BACKET !

The birds did not end up in the same place because they flew in different directions. Their speeds were the some, but because they flew in different directions, their velocities were different. Velocity is the speed of an object. and its direction. (ii)

The velocity of an object is constant as long as both. speed and direction are constant. If a bus driving at 15 m/s south specds up to 20 m/s south, its velocity changes. If the bus loveps moving at the same speed but charates direction from south to east, its velocity also changes. If the bus braices to a stop, the velocity of the bus observation against

The table below shows that velocity is a combination. of both the speed of an object and its direction.
