Kafe Castro Coffee Break Series English Edition:

Sartre in 60 Minutes Walther Ziegler, 2016-07-08 Sartre is surely one of the most important philosophers of the 20th Century His philosophy of existence influenced not just academic debate but the whole of Western civilization especially European youth In France from the end of WW2 on into the 1960s a certain youth culture milieu composed of secondary school and university students and young artists and intellectuals proclaimed their existential attitude to life by wearing the black clothes and horn rimmed glasses that Sartre was seen to wear in so many photos from the period The motto of these existentialists ran do not let anyone else tell you how you are to live They advocated a frank and intensive style of life both as regards friendships and love affairs and political commitments Sartre was the great philosopher of freedom No other philosopher has so strongly emphasized the freedom of the human will And because Man is free he must make something out of his life and lives as he believes it right to live if necessary contrary to existing social rules and traditions Sartre for example opposed many of his country s wars fought for a more just society launched many petitions and carried on a so called open relationship with his lifelong companion Simone de Beauvoir In his principal work Being and Nothingness Sartre also became one of the first philosophers to explore the nature of love How does love actually work What does it mean to lead a free and self determined life How free are we The book Sartre in 60 Minutes explains the most important of Sartre s theses in a clear and comprehensible way keeping close to Sartre s own text and including over fifty selected passages from his work and focussing on the central theme of his ideas about freedom and the structure of inter human relations In the chapter on what use Sartre s discovery is to us today it is then shown how important Sartre s thoughts still are for our personal lives and for the society of the 21st Century The book forms part of the popular series Great Thinkers in 60 Minutes **Great Thinkers in 60 Minutes - Volume 2** Walther Ziegler, 2016-08-04 Great Thinkers in 60 Minutes is the second omnibus volume drawn from the popular book series of the same name It comprises the five books already published as separate volumes Marx in 60 Minutes Freud in 60 Minutes Sartre in 60 Minutes Camus in 60 Minutes and Heidegger in 60 Minutes Each short study sums up the key idea at the heart of each respective thinker and asks the question Of what use is this key idea to us today But above all the philosophers get to speak for themselves Their most important statements are prominently presented as direct quotations in speech balloons with appropriate graphics with exact indication of the source of each quote in the author s works Between 40 and 80 representative passages are given from the work of each of the five philosophers This light hearted but nonetheless scholarly precise rendering of the ideas of each thinker makes it easy for the reader to acquaint him or herself with the great questions of our lives Because every philosopher who has achieved global fame has posed the question of meaning what is it that holds at the most essential level the world together There have emerged here a range of very different answers In Marx it is the relations of production that is to say the conditions under which we labour and produce the goods we need which ultimately determine our sense of our lives our thinking and our whole culture In

Freud it is the libido and thus the energy of our drives which we can either live out repress or sublimate In Sartre it is the absolutely free human will which compels Man to make himself what he is In Heidegger what absorbs us is the struggle for the authenticity of Dasein and the care for the Being of the world Camus is the only philosopher in this series who gives no answer at all to the question of meaning There is no meaning says Camus life is absurd and depends merely upon a sequence of random chance events In other words the meaning of the world and thus of our own lives remains among philosophers a topic of great controversy One thing though is sure each of these five thinkers struck from his own perspective one brilliant spark out of that complex crystal that is the truth

Before Fidel Francisco José Moreno, 2010-01-01 Before Fidel Castro seized power Cuba was an ebullient and chaotic society in a permanent state of turmoil combining a raucous tropical nature with the evils of arbitrary and corrupt government Yet this fascinating period in Cuban history has been largely forgotten or misrepresented even though it set the stage for Castro's dramatic takeover in 1959 To reclaim the Cuba that he knew and add color and detail to the historical record distinguished political scientist Francisco José Moreno here offers his recollections of the Cuba in which he came of age personally and politically Moreno takes us into the little known world of privileged upper middle class white Cubans of the 1930s through the 1950s His vivid depictions of life in the family and on the streets capture the distinctive rhythms of Cuban society and the dynamics between parents and children men and women and people of different races and classes The heart of the book describes Moreno's political awakening which culminated during his student years at the University of Havana Moreno gives a detailed insider's account of the anti Batista movement including the Ortodoxos and the Triple A He recaptures the idealism and naivety of the movement as well as its ultimate ineffectiveness as it fell before the juggernaut of the Castro Revolution His own disillusionment and wrenching decision to leave Cuba rather than accept a commission in Castro's army poignantly closes the book
