Year Book of Medicine 2015 James A Barker, 2016-07-28 The Year Book of Medicine brings you abstracts of the articles that reported the year's breakthrough developments in medicine carefully selected from more than 500 journals worldwide. Expert commentaries evaluate the clinical importance of each article and discuss its application to your practice. There's no faster or easier way to stay informed. Chapters include Rheumatology Infectious Disease Hematology and Oncology Kidney Water and Electrolytes Pulmonary Disease Heart and Cardiovascular Disease The Digestive System and Endocrinology Diabetes and Metabolism

NETosis 2: The Excitement Continues Mariana J. Kaplan, Marko Radic, Martin Herrmann, 2017-12-28 NETosis is a form of cell death that manifests by the release of decondensed chromatin to the extracellular space, providing valuable insights into mechanisms and consequences of cellular demise. Because extracellular chromatin can immobilize microbes, the extended nucleohistone network was called a neutrophil extracellular trap (NET) and the process of chromatin release was proposed to serve an innate immune defense function. Extracellular chromatin NETs were initially observed in studies of neutrophils and are most prominent in these types of granulocytes. Subsequent studies showed that other granulocytes and in a limited way other cells of the innate immune response may also release nuclear chromatin following certain kinds of stimulation. Variations of NETosis were noted with cells that remain temporarily motile after the release of chromatin. Numerous stimuli for NETosis were discovered, including bacterial breakdown products, inflammatory stimuli, particulate matter, certain crystals, immune complexes, and activated thrombocytes. Fundamental explorations into the mechanisms of NETosis observed that neutrophil enzyme activity (PAD4, neutrophil elastase, proteinase 3, and myeloperoxidase) and signal transduction pathways contribute to the regulation of NETosis. Histones in NET chromatin become modified by peptidylarginine deiminase 4 (PAD4) and cleaved at specific sites by proteases, leading to extensive chromatin externalization. In addition, NETs serve for attachment of bactericidal enzymes, including myeloperoxidase, leukocyte proteases, and the cathelicidin LL-37. NETs are decorated with proteases and may thus contribute to tissue destruction. However, the attachment of these enzymes to NET-associated supramolecular structures restricts systemic spread of the proteolytic activity. While the benefit of NETs in an infection appears obvious, NETs also participate as key protagonists in various pathologic states. Therefore, it is essential for NETs to be efficiently cleared; otherwise, digestive enzymes may gain access to tissues where inflammation takes place. Persistent NET exposure at sites of inflammation may lead to a further complication: NET antigens may provoke acquired immune responses and over time could initiate autoimmune reactions, serve as antigen for nuclear autoantibodies, and foster DNA immune complex-related inflammation. Neutrophil products and deiminated proteins comprise an important group of autoantigens in musculoskeletal disorders. Aberrant NET synthesis and/or clearance are often associated with inflammatory and autoimmune conditions. Recent evidence also implicates aberrant NET formation in the development of endothelial damage, atherosclerosis, and thrombosis.

Intravital microscopy provides evidence for conditions that induce NETosis in vivo Furthermore NETs can easily be detected in synovial fluid and tissue sections of patients with arthritis and gout NETosis is thus of interest to researchers who investigate innate immune responses host pathogen interactions chronic inflammatory disorders cell and vascular biology biochemistry and autoimmunity As we enter the second decade of research on NETosis it is useful and timely to review the mechanisms and pathways of NET formation their role in bacterial and fungal defense and their importance as inducers of autoimmune responses

Proceedings of International Conference on Data, Electronics and Computing Nibaran Das, Juwesh Binong, Ondrej Krejcar, Debotosh Bhattacharjee, 2023-11-21 This book features high quality peer reviewed research papers presented at the International Conference on Data Electronics and Computing ICDEC 2022 organized by departments of Electronics and Communication Engineering Computer Applications and Biomedical Engineering North Eastern Hill University Shillong Meghalaya India during 7-9 September 2022 The book covers topics in communication networking and security image video and signal processing cloud computing IoT and smart city AI ML big data and data mining VLSI design antenna and microwave and control

Biologic and Systemic Agents in Dermatology Paul S. Yamauchi, 2018-01-02 Written by leading experts in the field and designed for dermatologists and residents this book includes evidence based medicine that underscores the clinical data as well as practical tips on how to use both biologic and systemic agents in the field of dermatology In the past decade there have been several groundbreaking advances in medical dermatology Novel biologic and systemic agents have been developed to treat inflammatory disorders including psoriasis and atopic dermatitis as well as skin malignancies such as melanoma Biologic and Systemic Agents in Dermatology encompasses these developments by describing the mechanism of action of these various agents and the clinical efficacy and safety to treating these respective disorders The utilization of biologic and systemic agents in other dermatologic conditions pharmacoeconomics pharmacovigilance and clinical trials outcomes are discussed as well as topics including tumor necrosis conventional systemic agents for psoriatic disease and oral agents for atopic dermatitis

Biomass, Biofuels, Biochemicals Thallada Bhaskar, Ashok Pandey, 2021-01-22 Biomass Biofuels Biochemicals Lignin Biorefinery discusses the scientific and technical information relating to the structure and physico chemical characteristics of lignin The book covers the different processes biological thermal and catalytic routes available for lignin conversion into specialty chemicals or fuels activity relationships and how optimized process parameters help establish the feasible size of the commercial plant in a centralized or decentralized model In addition the advantages and limitations of different technologies are discussed considering local energy chemicals biopolymers drug intermediates activated carbons and much more Includes information on the most advanced and innovative processes for lignin conversion Covers information on biochemical and thermo chemical processes for lignin valorization Provides information on lignin chemistry and its conversion into high value chemicals and fuels Presents a book designed as a text book not merely a collection of research articles

Building Resilient Healthcare

Systems With ICTs Ndayizigamiye, Patrick, Kante, Macire, 2022-03-11 One of the challenges encountered in the provision of healthcare is the inability of healthcare systems to adapt to or respond adequately to adverse events pandemics or otherwise especially in settings with limited resources ICTs can be built into healthcare systems to detect and or mitigate adverse events The COVID 19 pandemic has showcased the opportunities that are brought forth by ICTs such as the adoption of online consultations by doctors and other innovative ways of providing healthcare despite public health regulations travel restrictions and fears tied to physical appointments Beyond the COVID 19 era there is a need to reimagine how ICTs could be adopted in healthcare to ensure resilience in the advent of any of these future adverse events Building Resilient Healthcare Systems With ICTs highlights the various ways ICTs could assist in building resilience within healthcare systems and the various contexts in which resilience could be built within healthcare systems It portrays practical implications of and value derived from building resilience in healthcare systems Covering topics such as electronic health information systems multimodal representation and supply chain management this book is an essential resource for healthcare executives government officials researchers computer engineers and academicians **Intelligent Systems** Murilo C. Naldi, Reinaldo A. C. Bianchi, 2023-10-11 The three volume set LNAI 14195 14196 and 14197 constitutes the refereed proceedings of the 12th Brazilian Conference on Intelligent Systems BRACIS 2023 which took place in Belo Horizonte Brazil in September 2023 The 90 full papers included in the proceedings were carefully reviewed and selected from 242 submissions They have been organized in topical sections as follows Part I Best papers resource allocation and planning rules and feature extraction AI and education agent systems explainability AI models Part II Transformer applications convolutional neural networks deep learning applications reinforcement learning and GAN classification machine learning analysis Part III Evolutionary algorithms optimization strategies computer vision language and models graph neural networks pattern recognition AI applications Recent Advancements in Materials and Systems for Thermal Energy Storage Andrea Frazzica, Luisa F. Cabeza, 2018-08-28 This book presents the latest advances in thermal energy storage development at both the materials and systems level It covers various fields of application including domestic industrial and transport as well as diverse technologies such as sensible latent and thermochemical The contributors introduce readers to the main performance indicators for thermal storage systems and discuss thermal energy storage TES technologies that can be used to improve the efficiency of energy systems and increase the share of renewable energy sources in numerous fields of application In addition to the latest advances the authors discuss the development and characterization of advanced materials and systems for sensible latent and thermochemical TES as well as the TES market and practical applications They also report on and assess the feasibility of uniform characterization protocols and main performance indicators compared to previous attempts to be found in the literature The book will help to increase awareness of thermal energy storage technologies in both the academic and industrial sectors while also providing experts new tools to achieve a uniform approach to thermal energy storage

characterization methods It will also be of interest to all students and researchers seeking an introduction to recent innovations in TES technologies *Year Book of Pediatrics 2016* Michael D. Cabana, 2016-07-29 *Year Book of Pediatrics* brings you abstracts of the articles that reported the year's breakthrough developments in pediatrics carefully selected from more than 500 journals worldwide Expert commentaries evaluate the clinical importance of each article and discuss its application to your practice Articles are selected to cover the full breadth of the specialty from gastroenterology hematology adolescent medicine allergy and immunology to urology neurology and therapeutics and toxicology *Valorization of Fruit Processing By-products* Charis M. Galanakis, 2019-09-14 *Valorization of Fruit Processing By products* covers the most recent advances in the field of fruit processing by products following sustainability principles The urgent need for sustainability within the food industry necessitates research to investigate the handling of by products with another perspective e g by adapting more profitable options This book covers the latest developments in this particular direction It promotes success stories and solutions that ensure the sustainable management of different fruit processing by products namely apple apricot avocado Castanea sativa citrus date mango melon passion fruit pineapple pink guava pomegranate and watermelon giving emphasis on the recovery of polyphenols antioxidants and dietary fiber Written by a team of experts in food processing and engineering chemistry and food waste this title is the definite guide for all the involved partners engineers professionals and producers active in the field Explores fruit processing techniques scale up limitations and economical evaluation for each source of fruit processing by product Discusses the valorization of by products derived from different fruits Features the following fruits including apple avocado chestnut citrus date mango melon and watermelon passion fruit pineapple pink guava and pomegranate *Weaving a Malawi Sunrise* Roberta Laurie, 2015-11-23 When you educate a girl you educate a nation Malawian saying The women of Malawi like many other women in developing countries struggle to find their way out of poverty and build a better life for themselves and their families Weaving a Malawi Sunrise tells the story of Memory Chazeza's quest to get an education and to build a school for young women Roberta Laurie was one of many who helped Memory realize her vision of seeing young girls become strong and independent women who could care for themselves and their future families During her time in Malawi Laurie met several other women each of whom had a story of her own Laurie combines these personal accounts with detailed information about the country's underlying social and political context Readers interested in Africa global affairs women's studies development and international education will give high marks to *Weaving a Malawi Sunrise* *Pediatric Infectious Disease: Part I, An Issue of Infectious Disease Clinics of North America* Mary Anne Jackson, 2015-09-07 This issue of *Infectious Disease Clinics of North America* Guest Edited by Mary Anne Jackson MD and Angela Myers MD is Part I of a 2 part issue devoted to Pediatric Infectious Diseases Drs Jackson and Myers have assembled a group of expert authors to review the following topics Diagnosis and Management of Kawasaki Disease Neonatal HSV Infection Use of Newer Diagnostics for Pediatric Tuberculosis Recognition and Prompt Treatment for Tick Borne

Sobol, 2015-01-07 Disorders of the Neonatal Airway serves as a comprehensive multidisciplinary resource for all practitioners who care for neonates with airway disorders With the evolution of advances in neonatology and neonatal airway care over the past three decades the survival rate and life expectancy of premature newborns have dramatically increased to well over 50% in 24-25 week gestation infants Unfortunately survival with long term intubation has brought a corresponding increase in acquired airway disorders needing collaborative high level neonatal and otolaryngological care Additionally with the advent of fetal therapy congenital airway disorders now make up a substantial number of neonates with complex airway disorders Because of this fact there has been increased focus on the

multidisciplinary evaluation and management of neonatal airway disorders The book is organized into three sections the first focuses on Malformations and Deformations the second focuses on Assessment Evaluation and Treatment and the third discusses Education Simulation and Quality As one of the only comprehensive resources on the topic Disorders of the Neonatal Airway focuses on a multidisciplinary approach to the neonatal airway This unique approach makes this reference a must read for practitioners from many disciplines The book is organized into three sections the first focuses on Malformations and Deformations the second focuses on Assessment Evaluation and Treatment and the third discusses Education Simulation and Quality As one of the only comprehensive resources on the topic Disorders of the Neonatal Airway focuses on a multidisciplinary approach to the neonatal airway This unique approach makes this reference a must read for practitioners from many disciplines The book is organized into three sections the first focuses on Malformations and Deformations the second focuses on Assessment Evaluation and Treatment and the third discusses Education Simulation and Quality As one of the only comprehensive resources on the topic Disorders of the Neonatal Airway focuses on a multidisciplinary approach to the neonatal airway This unique approach makes this reference a must read for practitioners from many disciplines

Geometry Driven Statistics Ian L. Dryden, John T. Kent, 2015-09-28 A timely collection of advanced original material in the area of statistical methodology motivated by geometric problems dedicated to the influential work of Kanti V Mardia This volume celebrates Kanti V Mardia's long and influential career in statistics A common theme unifying much of Mardia's work is the importance of geometry in statistics and to highlight the areas emphasized in his research this book brings together 16 contributions from high profile researchers in the field Geometry Driven Statistics covers a wide range of application areas including directional data shape analysis spatial data climate science fingerprints image analysis computer vision and bioinformatics The book will appeal to statisticians and others with an interest in data motivated by geometric considerations Summarizing the state of the art examining some new developments and presenting a vision for the future Geometry Driven Statistics will enable the reader to broaden knowledge of important research areas in statistics and gain a new appreciation of the work and influence of Kanti V Mardia [Conn's Current Therapy 2020, E-Book](#)

Rick D. Kellerman, KUSM-W Medical Practice Association, 2019-12-07 Designed to suit a wide range of healthcare providers including primary care subspecialties and allied health Conn's Current Therapy has been a trusted clinical resource for more than 70 years The 2020 edition continues this tradition of excellence with current evidence based treatment information presented in a concise yet in depth format More than 300 topics have been carefully reviewed and updated to bring you state of the art information even in the most rapidly changing areas of medicine Offers personal approaches from recognized leaders in the field covering common complaints acute diseases and chronic illnesses along with the most current evidence based clinical management options Follows a consistent easy to use format throughout with diagnosis therapy drug protocols and treatment pearls presented in quick reference boxes and tables for point of care answers to common clinical questions

Includes new and significantly revised chapters on neurofibromatosis autism psoriatic arthritis and postpartum depression Features thorough updates in areas critical to primary care including Acute Myocardial Infarction Hypertension Peripheral Arterial Disease Valvular Heart Disease Hepatitis C Irritable Bowel Syndrome Obsessive Compulsive Disorder Chronic Obstructive Pulmonary Disease Fibromyalgia Menopause Travel Medicine and more Provides current drug information thoroughly reviewed by PharmDs Shares the knowledge and expertise of new contributors who provide a fresh perspective in their specialties Features nearly 300 images including algorithms anatomical illustrations and photographs that provide useful information for diagnosis

Fleisher & Ludwig's Textbook of Pediatric Emergency Medicine Richard G. Bachur, Kathy N. Shaw, 2015-11-11 Before the 1st edition of the Textbook of Pediatric Emergency Medicine published there was no official pediatric emergency medicine subspecialty in either pediatrics or emergency medicine This book defined many of the treatments testing modalities procedural techniques and approaches to care for the ill and injured child As such it was written with both the pediatrician and the emergency physician in mind The Textbook of Pediatric Emergency Medicine has an entirely new editorial board and templated chapters focusing on evidence based diagnosis and management of pediatric patients in the ED The book's content has been rewritten to eliminate and eliminate redundancy creating succinct sections that pertain to patient care in the ED Templated chapters include Clinical Outcomes Goals of Therapy Current Evidence Clinical Considerations Clinical Recognition Triage Initial Assessment Management Diagnostic Testing Clinical indications for discharge or admission including parental instructions References In the ED nurses and physicians work closely as a paired team thus this edition reflects that partnership and offers content tailored to it Online ancillaries found in the bundled eBook include Learning Links for nursing considerations and clinical pathways that outline the key steps to take when managing critically ill patients

Big-Data Analytics and Cloud Computing Marcello Trovati, Richard Hill, Ashiq Anjum, Shao Ying Zhu, Lu Liu, 2016-01-12 This book reviews the theoretical concepts leading edge techniques and practical tools involved in the latest multi disciplinary approaches addressing the challenges of big data Illuminating perspectives from both academia and industry are presented by an international selection of experts in big data science Topics and features describes the innovative advances in theoretical aspects of big data predictive analytics and cloud based architectures examines the applications and implementations that utilize big data in cloud architectures surveys the state of the art in architectural approaches to the provision of cloud based big data analytics functions identifies potential research directions and technologies to facilitate the realization of emerging business models through big data approaches provides relevant theoretical frameworks empirical research findings and numerous case studies discusses real world applications of algorithms and techniques to address the challenges of big datasets

Women's Lives around the World Susan M. Shaw, Nancy Staton Barbour, Patti Duncan Ph.D., Kryn Freehling-Burton Ph.D., Jane Nichols, 2018-01-04 Providing an in depth look at the lives of women and girls in approximately 150 countries this multivolume reference set offers readers
