Caring for Equality David McBride, 2018-08-24 African Americans today continue to suffer disproportionately from heart disease diabetes and other health problems In *Caring for Equality* David McBride chronicles the struggle by African Americans and their white allies to improve poor black health conditions as well as inadequate medical care caused by slavery racism and discrimination since the arrival of African slaves in America Black American health progress resulted from the steady influence of what David McBride calls the health equality ideal the principle that health of black Americans could

and should be equal to that of whites and other Americans Including a timeline selected primary sources and an extensive bibliographic essay McBride s book provides a superb starting point for students and readers who want to explore in greater depth this important and understudied topic in African American history **Race, Class, and Affirmative Action** Sigal Alon, 2015-11-17 No issue in American higher education is more contentious than that of race based affirmative action In light of the ongoing debate around the topic and recent Supreme Court rulings affirmative action policy may be facing further changes As an alternative to race based affirmative action some analysts suggest affirmative action policies based on class In *Race Class and Affirmative Action* sociologist Sigal Alon studies the race based affirmative action policies in the United States and the class based affirmative action policies in Israel Alon evaluates how these different policies foster campus diversity and socioeconomic mobility by comparing the Israeli policy with a simulated model of race based affirmative action and the U S policy with a simulated model of class based affirmative action Alon finds that affirmative action at elite institutions in both countries is a key vehicle of mobility for disenfranchised students whether they are racial and ethnic minorities or socioeconomically disadvantaged Affirmative action improves their academic success and graduation rates and leads to better labor market outcomes The beneficiaries of affirmative action in both countries thrive at elite colleges and in selective fields of study As Alon demonstrates they would not be better off attending less selective colleges instead Alon finds that Israel s class based affirmative action programs have provided much needed entry slots at the elite universities to students from the geographic periphery from high poverty high schools and from poor families However this approach has not generated as much ethnic diversity as a race based policy would By contrast affirmative action policies in the United States have fostered racial and ethnic diversity at a level that cannot be matched with class based policies Yet class based policies would do a better job at boosting the socioeconomic diversity at these bastions of privilege The findings from both countries suggest that neither race based nor class based models by themselves can generate broad diversity According to Alon the best route for promoting both racial and socioeconomic diversity is to embed the consideration of race within class based affirmative action Such a hybrid model would maximize the mobility benefits for both socioeconomically disadvantaged and minority students *Race Class and Affirmative Action* moves past political talking points to offer an innovative evidence based perspective on the merits and feasibility of different designs of affirmative action *Voyage Charters* Julian Cooke, Tim Young, Michael Ashcroft, Andrew Taylor, John Kimball, David Martowski, LeRoy Lambert, Michael Sturley, 2014-09-19 Widely regarded as the leading authority on voyage charters this book is the most comprehensive and intellectually rigorous analysis of the area is regularly cited in court and by arbitrators and is the go to guide for drafting and disputing charterparty contracts *Voyage Charters* provides the reader with a clause by clause analysis of the two major charterparty forms the Gencon standard charterparty contract and the Asbatankvoy form It also delivers thorough treatment of COGSA and the Hague and Hague Visby Rules a comparative analysis of English and United States law and a detailed

section on arbitration awards Key features of the fourth edition The only textbook to deal specifically with this key area of maritime law Written by an impressive team of highly regarded maritime authorities from both sides of the Atlantic Contains a wealth of updated English and American case law and arbitrations as well as addressing broader issues such as Rome II Regulation Convention regarding the conflict of laws Practical user friendly guide which is accessible not only to lawyers but also shipping professionals A new detailed United States law section on COGSA This book is an indispensable practical guide for both contentious and non contentious shipping law practitioners and postgraduate students studying this area of law

California. Court of Appeal (4th Appellate District). Division 2. Records and Briefs California (State)., Academic Freedom in Conflict James L. Turk,2014-03-27 For more than a century academics have had unique rights to speak teach and write freely Central to the case for academic freedom is that scholars must be able to voice their views free of fear in order for society to gain a better understanding of ourselves and our world and to be effective teachers Academic freedom has always faced challenges Professors have been pressed to alter their work because it offends powerful interests both inside and outside the university Some have been fired or denied jobs for their political views their criticisms of colleagues and administrators and their refusal to buckle under corporate pressures to hush up research findings The sixteen contributors to this volume cite many such instances in Canada and the U S More significantly they point out how governments corporations and university administrators today are seeking to narrow academic freedom Among them Major donors are acquiring control over university teaching and even hiring decisions University administrators are firing professors with unpopular political views while pretending that the reasons for their decisions lie elsewhere Governments are using funding mechanisms to force feed research in some areas while shutting down inquiry in others Campus wide policies enforcing civility rules are preventing criticism and debate within a university Judges are issuing decisions which reverse previous rulings supporting academic freedom in the U S and Canada Together the contributors to this book examine attempts to

restrict academic freedom and explore its legitimate limits
